<i>Tables of balanced national accounts</i>	<i>xiv</i>
<i>Preface</i>	<i>xvii</i>

Part one: The theory of data reconciliation

1	The reconciliation of national accounts	3
1.1	Introduction	3
1.2	The average estimate of GDP	5
1.3	Allocation in recent estimates	5
1.4	Adjustment on the basis of data reliability	6
2	Basic issues in data reconciliation	12
2.1	Introduction	12
2.2	Least-squares estimation	13
2.3	Aggregation	19
2.4	Derived data	19
2.5	Sensitivity analysis	21
2.6	The Mahalanobis criterion	23
2.7	Serial correlation	24
2.8	Constant and current price data	26
2.9	Illustration	27
2.10	Conclusion	33
3	Reconciliation without knowledge of data reliabilities	34
3.1	Introduction	34
3.2	The problem specified	35
3.3	Unknown variance and a data estimator	36
3.4	A simple algebraic example	38
		vii

viii	Contents	
	3.5	An interpretation in terms of ordinary least squares 39
	3.6	The properties of the estimated weights 40
	3.7	Common autocorrelation in the measurement errors 40
	3.8	General serial correlation 41
	3.9	Heteroscedasticity 42
	3.10	Factor analysis and data extraction 45
	3.11	Example 1: US quarterly data 47
	3.12	Example 2: UK annual data 50
	3.13	Conclusion 52
	Part two: Application to UK national accounts	
	4	Patterns of autocorrelation 57
	4.1	Introduction 57
	4.2	The effect of autocorrelation on measurement error 58
	4.3	Patterns of autocorrelation and covariance 59
	4.4	Conclusions 67
	5	The data and their reliability, 1920–1948 68
	5.1	Data sources 68
	5.2	Data reliability, 1920–1938 69
	5.3	Data reliability, 1939–1948 85
	5.4	Conclusions 88
	6	The data and their reliability, 1948–1990 93
	6.1	Introduction 93
	6.2	The collection of the data 94
	6.3	Data reliability 103
	6.4	The Mahalanobis criterion 112
	6.5	Data standard errors 113
	7	Sectoral income/expenditure and capital accounts 119
	7.1	Introduction 119
	7.2	Initial estimates of sectoral income and expenditure 120
	7.3	Sectoral capital accounts 129
	7.4	Allocation of the adjustments from the production accounts 134
	7.5	Conclusions 141
	8	The results of the balancing exercise 143
	8.1	Introduction 143

Cambridge University Press
978-0-521-12007-4 - Reconciliation of National Income and Expenditure: Balanced
Estimates of National Income for the United Kingdom, 1920-1990
James Sefton and Martin Weale
Table of Contents
[More information](#)

Contents	ix
8.2 Analysis of the adjustments to the main aggregates	144
8.3 Adjustments to the main aggregates	150
8.4 Data reliability	160
8.5 Conclusions	177
 Part three: Balanced national accounts for the United Kingdom: 1920–1990	 179
 <i>Bibliography</i>	 317
<i>Index</i>	320
