Index

The following index is principally an onomastic one and uses the word-by-word method of alphabetization. For the latter purpose, the German *Umlaut* (ä, ö, ü) – contrary to German usage – has been ignored. The German Von and Dutch Van in proper names are indexed under the following part of the name (e.g. Goethe, Johann Wolfgang von). References to Calderón's works are not separately filed and should be consulted under Calderón de la Barca, Pedro, and the relevant genre subentry (e.g. Works–dramas). Italic page numbers indicate a principal entry.
