1 **The bioarchaeology of children** 1
   1.1 Children in archaeology 1
   1.2 A history of childhood 2
   1.3 Children in biological anthropology 10
   1.4 Children in forensic anthropology 13
   1.5 Summary 19

2 **Fragile bones and shallow graves** 20
   2.1 Introduction 20
   2.2 Fragile bones? 23
   2.3 Little people... little things... 26
   2.4 The marginalised child? 30
   2.5 Obstetric deaths 33
   2.6 Summary 37

3 **Age, sex and ancestry** 38
   3.1 Non-adult ageing 38
   3.2 Sex determination 47
   3.3 Ancestry 55
   3.4 Summary 58

4 **Growth and development** 60
   4.1 Introduction 60
   4.2 Skeletal development and ossification 61
   4.3 Prenatal and postnatal growth 62
   4.4 Puberty and the growth spurt 64
   4.5 Factors affecting growth 66
   4.6 Growth studies: methods and concerns 68
   4.7 Interpretations of past growth 74
   4.8 Bone density 76
   4.9 Estimations of stature 77
   4.10 Summary 79
## Contents

5 **Difficult births, precarious lives**

5.1 Introduction 81
5.2 Infant mortality rates 81
5.3 Reconstructing child mortality 86
5.4 Infanticide 87
5.5 Summary 96

6 **Little waifs: weaning and dietary stress**

6.1 Introduction 97
6.2 Properties of human breastmilk 97
6.3 Weaning and infection 99
6.4 Ancient feeding practices 100
6.5 The osteological evidence 103
6.6 Weaning and bone chemistry analysis 115
6.7 Specific diseases of malnutrition 119
6.8 Summary 132

7 **Non-adult skeletal pathology**

7.1 Introduction 133
7.2 Non-specific infections 134
7.3 Endocranial lesions 141
7.4 Infantile cortical hyperostosis 143
7.5 Tuberculosis 146
7.6 Congenital syphilis 151
7.7 Skeletal pathology and personal identification 159
7.8 Summary 162

8 **Trauma in the child**

8.1 Introduction 163
8.2 Properties of paediatric trauma 163
8.3 Types of fracture 165
8.4 Birth trauma 168
8.5 Non-adult trauma in the archaeological record 169
8.6 Physical child abuse 175
8.7 Clinical features of child abuse 176
8.8 Child abuse in the archaeological record 181
8.9 Summary 183

9 **Future directions**

9.1 Is absence of evidence evidence of absence? 185
9.2 Failure to adapt: children as non-survivors 186
