

## INDEX

- A 0620-00 X-ray source 382-4  
 A 1118-61 (Cen X-mas) X-ray source 378  
 Aberporth, Wales 21, 25, 64  
 Admiralty 82, 213  
   Signals Research Establishment 40  
 Advisory Board for the Research Councils (ABRC) 217  
 Advisory Council on Scientific Policy (ACSP) 66, 67-8, 70, 124  
 Aerobee rockets 7, 11, 14, 196-7, 437, 438, 439  
 air density, variations in 51-2, 263-6, 273  
 Air Ministry 5, 22, 215  
 airglow studies 31, 46, 47, 179, 261, 280, 290-2  
 Alouette 1 165, 169, 299, 312  
 Amaldi, E. 109-10, 112, 246  
 American Association for Research in Astronomy (AURA) 255  
 ammonia release experiment 141, 142  
 AMPTE programme 390  
 Apollo moon flights 294, 295  
 Appleton, E.V. 1, 5, 222  
 Appleton Laboratory (formerly Radio Research Station (RRS), and Radio and Space Research Station (RSRS)) 106, 107, 173, 209, 218, 222, 223  
 Ariel experiments 98, 103, 306, 331  
 Astrophysics Research Division, *see* Astrophysics Research Division (ARD)  
 data processing 80, 93, 261  
 international satellite experiments 145, 333, 334, 342, 357, 358, 368  
 rocket experiments 187, 191, 277, 280, 289, 303, 304, 305, 321, 322, 325-6  
 satellite tracking 40, 42-3, 64, 66, 75, 98, 105, 299  
 Aquila X-1 X-ray source 379  
 Arcas rockets 170, 431-5  
 ARIANE 236  
 Ariel satellites 74-107, 108, 429-30  
   Ariel 1 (S-51) 165, 166; launching 82-6; planned orbit 80-2; satellite design 77-8; scientific instruments 75-7, 80, 166, 306-7, 308, 429; scientific results 87-91, 309, 310, 311, 312-14; subsequent life 87  
   Ariel 2 (S-52) 91-3, 165, 288, 429; launching 94, 95-6  
   Ariel 3 (S-53) 96-102, 269, 306, 312, 429; scientific results 99-102, 288-9, 314-15, 326-7, 330, 331  
   Ariel 4 102-3, 306, 312, 326, 330, 331, 429  
   Ariel 5 103-6, 209, 368, 376, 380-7, 429  
   Ariel 6 106-7, 307, 337-8, 368, 387, 429; satellite design 77-8; tracking and data acquisition 78-80; US/UK co-operative arrangements 74-5, 96-7, 106  
 Armstrong, E.B. 31, 47, 290  
 Aston University 262, 263, 268  
 Astrobbee-F rockets 373, 442  
 astronomy (*see also specific branches of astronomy e.g. X-ray astronomy*) 103-4, 180, 222-4  
   ground-based 212-13, 221, 222-3  
   optical 249, 390  
 Astrophysics Research Division (ARD) (formerly Astrophysics Research unit (ARU), at the Culham Laboratory) 208, 221, 222, 359  
 ESRO LAS project 155-6, 158-9, 160, 355-6  
 Skylark experiments 201, 202, 203-4, 208, 341, 343-4, 345

506 *Index*

- atmosphere  
 composition 287–90  
 density, *see* air density  
 Gassiot Committee and research on 4–6  
 high latitude studies 180, 190–1, 280, 281, 323–6  
 infra-red remote sounding 281–7, 293–4  
 rocket studies 6–8, 46–8, 173–4, 175, 179, 271–81; above 100 km 29, 277–80; below 100 km 28–31, 170–1, 185, 271–7; stratospheric warming 281  
 rotation of high 52, 266–7  
 tidal oscillations 273–7  
 Atmospheric Explorer satellites 303  
 Atomic Energy Research Establishment, Harwell 295  
 Atomic Weapons Research Establishment (AWRE) 80, 93, 98, 149, 155, 187  
 Auger, P. 110, 112, 113, 118, 119, 133, 144, 162  
 aurora, investigation of polar 145, 180, 323–6  
 Aurora satellite, *see* ESRO I satellite  
 Australia 163, 164, 168, 169, 178  
 European relationships 110, 113, 125, 227  
 UK relationships 12, 21–3

 solar eclipse 345–8  
 solar flares 90, 146, 306, 320, 340, 342, 348, 350–3  
 solar Lyman  $\alpha$  radiation 32–3, 76, 84, 341, 348
- Solar Maximum Mission (SMM) 342–3, 350–3, 443
- solar X-ray and ultra-violet astronomy 2, 4, 339–53
- ESRO sounding rockets 141, 142  
 satellite experiments 76, 90, 92–3, 144, 147, 148, 348–53  
 stabilized Skylarks 201, 202, 221, 343–5  
 unstabilized Skylarks 32–3
- sounding rockets (*see also specific rockets*)  
 6–8, 11–23, 437–42  
 American 11, 196–7, 437, 438  
 Commonwealth programme 166, 167–71, 174–6, 417–25, 427, 428  
 European 140–2, 233, 234, 431–5, 469–70  
 small scientific 177–91
- South Uist launching site 173, 333  
 Petrel flights 186, 187, 190, 290, 291, 321, 322, 330, 333, 414–16  
 Skua flights 174, 183, 185, 426–7
- Southampton University 73, 305, 388–9  
 rocket experiments 187, 306, 326, 330, 333
- Space Lab 231, 235, 236, 258, 380  
 space probes 44, 120, 146, 151, 161  
 Space Research Management Unit (SRMU) 93–4, 98, 186–7, 210, 219, 222  
 space shuttle 231, 236, 250, 353  
 Space Telescope (LST) 243, 249–55, 390  
 Science Institute 253–5  
 Williamsburg Conference 251–3, 490–1, 492–3
- Spain 119, 227  
 El Arenosillo range 323, 412, 413, 440–1
- Spitzingsee Conference (1978) 255–7
- Sputniks 299  
 Sputnik 1 15, 39–40, 42, 50–1, 52–3, 54  
 Sputnik 2 41–2, 51, 52, 266  
 Sputnik 3 43–4
- Starfish explosion 87, 88  
 stars, pointing rockets at 199, 205–8
- Steering Group on Space Research 72–3, 171, 199–200, 212, 216, 218  
 Ariel programme 77, 98  
 ESRO and 110, 114–15, 117, 129  
 small rockets 178, 183, 187
- Stewardson, E.A. 33, 73, 76, 144, 340  
 stratospheric warming 281, 285–7  
 strontium release 175
- sun, pointing rockets at 198, 199, 200, 203–4
- Sussex University 175, 191, 305, 330  
 Sweden 178, 227, 439  
 formation of ESRO 111, 114, 119, 129, 136  
 Kiruna range 123, 137, 140, 142, 143, 276, 323, 324, 427–8
- Switzerland 111, 114, 119, 138, 227
- T Tau 362  
 Tau XT (A 0535 + 26) 382, 384
- Thor–Delta rockets 81, 83, 85, 146, 241  
 Thor–Delta (TD) satellites 146–51, 158, 360  
 TD-1 147–51, 235, 360–2, 436  
 TD-2 148–9
- thunderstorms, radio noise from 98, 100, 306, 327, 331
- TIROS satellites 287
- Tomahawk rockets 440, 441
- tracking of satellites 37–8, 41, 261–3  
 British central facility 41, 42–3  
 British stations 49–50, 64, 75, 98  
 Commonwealth stations 164–5  
 European network 112, 132, 151  
 NASA network (STADAN) 75, 79, 98, 105, 132, 151  
 Sputniks 39–40, 42
- Treasury 19, 20, 22, 42–3, 213, 217
- Trend Committee 210–16
- Trimethyl aluminium (TMA) release 142, 171, 175, 176, 278–9, 317–18
- Uhuru satellite 104, 367, 379
- ultra-violet astronomy (*see also*  
 International Ultra-Violet Explorer;  
 solar X-ray and ultra-violet  
 astronomy) 209, 222, 249, 353–66  
 ESRO LAS project 152, 153, 156, 159–60, 355–6  
 stabilized Skylarks 193, 197–8, 204–5, 208  
 TD-1 satellite 147, 149–50, 151, 360–2  
 unstabilized Skylarks 194–6, 353–5  
 Ultra-Violet Astronomy Satellite (UVAS) 356–7, 358
