## Contents

| Preface | ix |
| List of contributors | x |

1. Shear flows and their attractors  
   M. Boukrouche & G. Lukaszewicz  
   1

2. Mathematical results concerning unsteady flows of chemically reacting incompressible fluids  
   M. Bulíček, J. Málek, & K.R. Rajagopal  
   26

3. The uniqueness of Lagrangian trajectories in Navier–Stokes flows  
   M. Dashti & J.C. Robinson  
   54

4. Some controllability results in fluid mechanics  
   E. Fernández-Cara  
   64

5. Singularity formation and separation phenomena in boundary layer theory  
   F. Gargano, M.C. Lombardo, M. Sammartino, & V. Sciacca  
   81

6. Partial regularity results for solutions of the Navier–Stokes system  
   I. Kukavica  
   121

7. Anisotropic Navier–Stokes equations in a bounded cylindrical domain  
   M. Paicu & G. Raugel  
   146

8. The regularity problem for the three-dimensional Navier–Stokes equations  
   J.C. Robinson & W. Sadowski  
   185

9. Contour dynamics for the surface quasi-geostrophic equation  
   J.L. Rodrigo  
   207

10. Theory and applications of statistical solutions of the Navier–Stokes equations  
    R. Rosa  
    228
Preface

This volume is the result of a workshop, “Partial Differential Equations and Fluid Mechanics”, which took place in the Mathematics Institute at the University of Warwick, May 21st–23rd, 2007.

Several of the speakers agreed to write review papers related to their contributions to the workshop, while others have written more traditional research papers. All the papers have been carefully edited in the interests of clarity and consistency, and the research papers have been externally refereed. We are very grateful to the referees for their work. We believe that this volume therefore provides an accessible summary of a wide range of active research topics, along with some exciting new results, and we hope that it will prove a useful resource for both graduate students new to the area and to more established researchers.

We would like to express their gratitude to the following sponsors of the workshop: the London Mathematical Society, the Royal Society, via a University Research Fellowship awarded to James Robinson, the North American Fund and Research Development Fund schemes of Warwick University, and the Warwick Mathematics Department (via MIR@W). JCR is currently supported by the EPSRC, grant EP/G007470/1.

Finally it is a pleasure to thank Yvonne Collins and Hazel Higgens from the Warwick Mathematics Research Centre for their assistance during the organization of the workshop.

Warwick,

James C. Robinson

December 2008

Contributors

Those contributors who presented their work at the Warwick meeting are indicated by a star in the following list.

Mahdi Boukrouche
Laboratory of Mathematics, University of Saint-Etienne, LaMUSE EA-3989, 23 rue du Dr Paul Michelon, Saint-Etienne, 42023. France.
Mahdi.Boukrouche@univ-st-etienne.fr

Miroslav Bulíček
Charles University, Faculty of Mathematics and Physics, Mathematical Institute, Sokolovská 83, 186 75 Prague 8. Czech Republic.
mbul8060@karlin.mff.cuni.cz

Masoumeh Dashti *
Mathematics Department, University of Warwick, Coventry, CV47AL. United Kingdom.
M.Dashti@warwick.ac.uk

Enrique Fernández-Cara *
Departamento de Ecuaciones Diferenciales y Análisis Numérico, Facultad de Matemáticas, Universidad de Sevilla, Apartado 1160, 41080 Sevilla. Spain.
cara@us.es

Francesco Gargano
Department of Mathematics, Via Archirafi 34, 90123 Palermo. Italy.
gargano@math.unipa.it
List of contributors

Igor Kukavica *
Department of Mathematics, University of Southern California, Los Angeles, CA 90089, USA.
kukavica@usc.edu

Maria Carmela Lombardo
Department of Mathematics, Via Archirafi 34, 90123 Palermo. Italy.
lombardo@math.unipa.it

Grzegorz Łukaszewicz *
University of Warsaw, Mathematics Department, ul. Banacha 2, 02-957, Warsaw. Poland.
glukasz@mimuw.edu.pl

Josef Málek *
Charles University, Faculty of Mathematics and Physics, Mathematical Institute, Sokolovská 83, 186 75 Prague 8. Czech Republic.
malek@karlin.mff.cuni.cz

Marius Paicu
Université Paris-Sud and CNRS, Laboratoire de Mathématiques, Orsay Cedex, F-91405. France.
Marius.Paicu@math.u-psud.fr

Kumbakonam R. Rajagopal
Department of Mechanical Engineering, Texas A&M University, College Station, TX 77843. USA.
krajagopal@mengr.tamu.edu

Geneviève Raugel *
CNRS and Université Paris-Sud, Laboratoire de Mathématiques, Orsay Cedex, F-91405. France.
Genevieve.Raugel@math.u-psud.fr

James C. Robinson
Mathematics Institute, University of Warwick, Coventry, CV4 7AL. United Kingdom.
J.C.Robinson@warwick.ac.uk

José L. Rodrigo *
Mathematics Department, University of Warwick, Coventry, CV4 7AL. United Kingdom.
