EDITOR’S PREFACE

I am indebted to the family of the late Professor F. A. Cavenagh, who in 1931 edited James and J. S. Mill on Education, for permission to quote extensively from his Preface, and to use some of his Notes.

In the present volume the text of the essay Education is taken from the collection of Essays on Government, Jurisprudence etc. published in 1828. That for Schools for All, which appears for the first time in a modern edition, is taken from the original article published in the Philanthropist, 1812.
