Cambridge University Press has no responsibility for the persistence or
 accuracy of URLs for external or third-party internet websites referred to in
 this publication, and does not guarantee that any content on such websites is,
 or will remain, accurate or appropriate.

Every effort has been made in preparing this book to provide accurate and up-to-date
 information which is in accord with accepted standards and practice at the time of publication.
 Although case histories are drawn from actual cases, every effort has been made to disguise the
 identities of the individuals involved. Nevertheless, the authors, editors and publishers can make no
 warranties that the information contained herein is totally free from error, not least because clinical
 standards are constantly changing through research and regulation. The authors, editors and
 publishers therefore disclaim all liability for direct or consequential damages resulting from the
 use of material contained in this book. Readers are strongly advised to pay careful attention
 to information provided by the manufacturer of any drugs or equipment that they plan to use.
