Every effort has been made in preparing this book to provide accurate and
up-to-date information which is in accord with accepted standards and
practice at the time of publication. Although case histories are drawn from
actual cases, every effort has been made to disguise the identities of the
individuals involved. Nevertheless, the authors, editors and publishers can
make no warranties that the information contained herein is totally free
from error, not least because clinical standards are constantly changing
through research and regulation. The authors, editors and publishers
therefore disclaim all liability for direct or consequential damages
resulting from the use of material contained in this book. Readers are
strongly advised to pay careful attention to information provided by the
manufacturer of any drugs or equipment that they plan to use.
