

Contents

<i>Preface</i>	<i>page</i>	ix
1 Asking for More Than Truth: Duhem's Law of Cognitive Complementarity		1
<i>The Security/Definiteness Trade-off and the Contrast Between Science and Common Sense</i>		1
<i>Science versus Common Sense</i>		3
<i>Further Ramifications</i>		5
<i>Knowledge in Perspective</i>		6
2 Kant's Conception of Knowledge as Systematized Information		9
<i>Distinguishing Knowledge and Information</i>		9
<i>Kant on the Systematicity of Knowledge</i>		10
<i>The Hierarchical Textualization of Knowledge</i>		13
3 Spencer's Law of Cognitive Development		15
<i>Spencer's Law: The Dynamics of Cognitive Complexity</i>		15
<i>How Cognitive Taxonomy Has Grown More Complex</i>		18
<i>Evolving Complexity</i>		24
<i>A Quantitative Perspective</i>		26
4 Gibbon's Law of Logarithmic Returns		29
<i>Kant's Principle of Questions Propagation</i>		29
<i>Edward Gibbon and Logarithmic Returns</i>		32
<i>Diminishing Returns and Logarithmic Retardation</i>		39
<i>Planck's Principle</i>		42

5	Adams's Thesis on Exponential Growth	45
	<i>Scientific Progress</i>	45
	<i>Adams's Thesis</i>	46
	<i>Dimensions of the Phenomenon</i>	48
	<i>The Linear Growth of Knowledge</i>	51
	<i>The Lesson</i>	54
	<i>Bibliographic Appendix</i>	54
6	Quality Retardation	57
	<i>The Centrality of Importance</i>	57
	<i>Levels of Cognitive Importance</i>	59
	<i>Quality Retardation</i>	62
	<i>Elites</i>	64
	<i>Cognitive Importance as Reflected in Space Allocation</i>	66
	<i>Cognitive Importance as Reflected in Citation</i>	68
7	How Much Can Be Known? A Leibnizian Perspective on the Quantitative Discrepancy Between Linguistic Truth and Objective Fact	73
	<i>How Much Can a Person Know? Leibniz on Language</i>	
	<i>Combinatorics</i>	73
	<i>The Leibnizian Perspective</i>	77
	<i>Statements Are Enumerable, As Are Truths</i>	80
	<i>Truths versus Facts</i>	81
	<i>The Inexhaustibility of Fact</i>	81
	<i>Facts Are Transdenumerable</i>	83
	<i>More Facts Than Truths</i>	86
	<i>Noninstantiable Properties and Vagrant Predicates</i>	87
	<i>Musical Chairs Once More</i>	90
	<i>Coda: Against Cognitive Nominalism</i>	92
	<i>Appendix: Further Implications</i>	93
8	On the Limits of Knowledge: A Kantian Perspective on Cognitive Finitude	95
	<i>Limits of Knowledge</i>	95
	<i>Cognitive Finitude</i>	97
	<i>Surd Facts and Unknowability</i>	99
	<i>Larger Lessons: Isaiah's Law</i>	101
	Conclusion	105
	<i>Bibliography</i>	107
	<i>Index of Names</i>	111
