Preface ix

Titles of other papers from the symposium xi

List of contributors xiii

Part I Definition and relationships

- 1 The Chrysophyta – a reassessment 3
Frank E. Round
- 2 Ultrastructure of the Chrysophyceae – phylogenetic implications and taxonomy 23
David J. Hibberd
- 3 A survey of the marine Chrysophyceae with special reference to the Sarcinochrysidales 37
Paulette Gayral and Chantal Billard
- 4 The actinophryid heliozoa (Sarcodina, Actinopoda) as chromophytes 49
David J. Patterson

Part II Taxonomy

- 5 Classification of four genera of Chrysophyceae bearing silica scales in a family separate from *Mallomonas* and *Synura* 71
Hans R. Preisig and David J. Hibberd
- 6 A proposed phylogenetic sequence for the loricate rhizopodial Chrysophyceae 75
Richard L. Meyer
- 7 New species of the genus *Mallomonas* (Mallomonadaceae, Chrysophyceae) from New Zealand 87
Monika Dürschmidt

Edited by Jorgen Kristiansen and Robert A. Andersen

Table of Contents

[More information](#)

vi

Contents

- 8 Some new observations on *Saccochrysis piriformis*
Korsh. emend. Andersen (Chrysophyceae) 107
Robert A. Andersen

Part III Cell biology

- 9 Scale case construction in *Synura petersenii* Korsh.
(Chrysophyceae) 121
Barry S.C. Leadbeater
- 10 Autofluorescent vesicles in *Ochromonas danica*
Prings. (Chrysophyceae) 133
Annette W. Coleman
- 11 Chloroplast DNA in the Chrysophyceae: copy number,
packaging, and gene expression in *Olisthodiscus luteus* 143
*Rose Ann Cattolico, Jane Aldrich, Steven Bressler, Duncan
Ersland-Talbot, Scott Newman, and Michael Reith*

Part IV Population dynamics

- 12 Phytoplankton dynamics in a chrysophycean lake 165
Peter A. Siver and Jan S. Chock
- 13 Blooms of *Uroglena americana* in relation to
concentrations of B group vitamins 185
Akira Kurata
- 14 Light quality effects on carbon and sulfur uptake of a
metalimnetic population of the colonial chrysophyte
Chryso-sphaerella longispina 197
Frances R. Pick and R.L. Cubel
- 15 Effects of environmental temperature on the vegetative
growth and sexual life history of *Dinobryon cylindricum*
Imhof 207
Craig D. Sandgren

Part V Ecology and biogeography

- 16 Identification, ecology, and distribution of silica-
scale-bearing Chrysophyceae, a critical approach 229
Jørgen Kristiansen
- 17 Development and succession of scale-bearing
Chrysophyceae in two shallow freshwater bodies near Nijmegen,
The Netherlands 241
R.M.M. Roijackers

Cambridge University Press

978-0-521-18007-8 - Chrysophytes: Aspects and Problems

Edited by Jorgen Kristiansen and Robert A. Andersen

Contents

vii

- 18 *Chromophysomonas* (Chrysophyceae) from twenty-seven localities in the Oslo area 259
Absjørn Skogstad

Part VI Paleobiology

- 19 Scale microfossils of Early Cambrian age from Canada 273
Carol Wagner Allison and Jerry W. Hilgert
- 20 Chrysophycean cysts and scales in lake sediments: a review 281
Gertrud Cronberg
- 21 A proposal for the development of standardized nomenclature and terminology for chrysophycean statospores 317
Gertrud Cronberg and Craig D. Sandgren

Index 329
