978-0-521-18245-4 - Payload and Mission Definition in Space Sciences

V. Martinez Pillet, A. Aparicio and F. Sanchez

Table of Contents

[More information](#)*Contents*

Preface	<i>page</i> vii
Acknowledgements	ix
1 The life cycle of an ESA science mission and how to get involved By Alvaro Giménez	1
2 Design issues for space science missions By Yves Langevin	17
3 Instrumentation in X-ray Astronomy By X. Barcons	89
4 EUV and UV imaging and spectroscopy from space By Richard A. Harrison	125
5 The luminosity oscillations imager, a space instrument: from design to science By Thierry Appourchaux	185
6 Hipparcos and Gaia: the development of space astrometry in Europe By M.A.C. Perryman	219
7 Space Physics Instrumentation and Missions By A. Balogh	233
8 Planetary observations and landers By A. Coradini	323
