Subject index

- LDU* factorization, 50
- almost strictly totally positive, 24, 34
- banded, 155
- Cauchy matrix, 92
- Cauchy–Binet formula, 2, 33
- Chebyshev system, 88
- compound matrix, 2
- Descartes system, 88
- dispersion, 37
- eigenvalue interlacing, 140
- exponentials, 88
- Fekete’s Lemma, 37
- Gantmacher–Krein Theorem, 130
- Gaussian polynomials, 110
- generalized Hadamard inequality, 24
- generalized Hurwitz matrix, 111
- Grassman product, 3
- Green’s matrix, 96, 121
- Hadamard inequality, 24, 34
- Hadamard product, 119
- Hankel matrix, 101, 123
- Hurwitz matrix, 117, 124
- Hurwitz polynomial, 117, 124
- Jacobi matrix, 97, 121
- Kronecker’s Theorem, 132
- lower strictly totally positive, 47
- lower totally positive, 47
- lower triangular, 47
- Maló’s Theorem, 123
- oscillation matrix, 127
- Perron’s Theorem, 130
- pivot block, 4
- principal minor, 5
- principal submatrix, 4
- Schur Product Theorem, 123
- shadow, 13
- sign changes, 76
- sign regular, 86
- strictly sign regular, 86
- strictly totally positive, 2
- strictly totally positive kernel, 87
- Sylvester’s Determinant identity, 3
- Szasz’s inequality, 34
- Toeplitz matrix, 104, 123
- totally positive, 2
- totally positive kernel, 87
- triangular total positivity, 47
- upper strictly totally positive, 47
- upper totally positive, 47
- upper triangular, 47
- variation diminishing, 76, 85
- Whitney Theorem, 167
