Every effort has been made in preparing this book to provide  
accurate and up-to-date information which is in accord with  
accepted standards and practice at the time of publication. Although  
case histories are drawn from actual cases, every effort has been made  
to disguise the identities of the individuals involved. Nevertheless,  
the authors, editors and publishers can make no warranties that  
the information contained herein is totally free from error, not least  
because clinical standards are constantly changing through research  
and regulation. The authors, editors and publishers therefore dis-
