Cambridge University Press has no responsibility for the
 persistence or accuracy of URLs for external or third-party
 internet websites referred to in this publication, and does not
 guarantee that any content on such websites is, or will remain,
 accurate or appropriate.

Every effort has been made in preparing this book to provide
 accurate and up-to-date information which is in accord with
 accepted standards and practice at the time of publication.
 Although case histories are drawn from actual cases, every
 effort has been made to disguise the identities of the individuals
 involved. Nevertheless, the authors, editors and publishers can
 make no warranties that the information contained herein is
 totally free from error, not least because clinical standards are
 constantly changing through research and regulation. The
 authors, editors and publishers therefore disclaim all liability
 for direct or consequential damages resulting from the use of
 material contained in this book. Readers are strongly advised to
 pay careful attention to information provided by the
 manufacturer of any drugs or equipment that they plan to use.
