*List of contributors* vii  
*Foreword* xi  
*Preface* xiii  
*List of abbreviations* xv  

## Section 1 – General

1. **Historical perspectives**
   - John Dunning and Sir Roy Calne

2. **Immunological principles of acute rejection**
   - Fadi G. Issa, Ryoichi Goto, and Kathryn J. Wood

3. **Immunosuppression: Past, present, and future**
   - Vineeta Kumar and Robert S. Gaston

4A. **Major complications – cancer**
   - Bimalangshu R. Dey and Thomas R. Spitzer

4B. **Major complications – pathology of chronic rejection**
   - Yael B. Kushner and Robert B. Colvin

4C. **Major complications – infection**
   - Camille Nelson Kotton

5. **Organ donor management and procurement**
   - Edward Cantu III and David W. Zaas

## Section 2 – Heart

6. **Recipient selection**
   - R.V. Venkateswaran and Jayan Parameshwar

7. **Donor heart selection**
   - Kiran K. Khush and Jonathan G. Zaroff

8. **Ventricular assist devices**
   - David G. Healy and Steven S.L. Tsui

9. **Surgical procedure**
   - R.V. Venkateswaran and David P. Jenkins

10. **Management during surgery**
    - Kate Drummond and Andrew A. Klein

11. **Postoperative care and early complications**
    - Mandeep R. Mehra

12. **Long-term management and outcomes**
    - Hari K. Parthasarathy and Clive J. Lewis

13. **Pediatric heart transplantation**
    - Jacob Simmonds and Michael Burch

## Section 3 – Lung

14. **Recipient selection**
    - J.S. Parmar

15. **Living donor lobar lung transplantation**
    - Hiroshi Date

16. **Surgical procedure**
    - Faruk Özalp, Tanveer Butt, and Stephan V.B. Schueler

17. **Management during surgery**
    - David Ip and Peter Slinger

18. **Postoperative care and early complications**
    - Vlad Vinarsky and Leo C. Ginz

19. **Long-term management and outcomes**
    - Paul Corris

20. **Pediatric lung transplantation**
    - Stuart C. Sweet and Samuel Goldfarb
Contents

Section 4 – Liver
21 Recipient selection 173
Alex Gimson
22 Living donor liver transplantation 182
Koji Hashimoto, Cristiano Quintini, and Charles Miller
23 Surgical procedure 190
Simon J.F. Harper and Neville V. Jamieson
24 Peri-operative care and early complications 199
John Klinck and Andrew J. Butler
25 Long-term management and outcomes 212
William Gelson and Graeme J.M. Alexander
26 Pediatric liver transplantation 220
Hector Vilca-Melendez and Giorgina Mieli-Vergani

Section 5 – Kidney
27 Recipient selection 231
Ernest I. Mandel and Nina E. Tolkoff-Rubin
28 Sensitization of kidney transplant recipients 238
Nick Pritchard
29 Live donor kidney donation 248
Arthur J. Matas and Hassan N. Ibrahim
30 Surgical procedure 253
Paul Gibbs
31 Peri-operative care and early complications 258
Lorna Marson and John Forsythe
32 Long-term management and outcomes 265
Sharon Mulroy and John D. Firth
33 Pediatric kidney transplantation 278
Khashayar Vakili and Heung Bae Kim

Section 6 – Other abdominal organs
34 Pancreatic transplantation 286
Dixon B. Kaufman
35 Pancreatic islet transplantation 295
Heidi Yeh and James F. Markmann
36 Intestinal transplantation 303
Stephen J. Middleton, Simon M. Gabe, Neville V. Jamieson, and Andrew J. Butler

Section 7 – Other
37 Composite tissue allotransplantation: Face transplantation 313
Maria Siemionow and Can Ozturk
38 Hematopoietic stem cell transplantation 320
Charles Crawford and Thomas R. Spitzer
39 Corneal transplantation 330
Yvonne H. Luo and D. Frank P. Larkin

Section 8 – The transplant service
40 UK and European service – legal and operational framework 335
Chris J. Rudge and Axel O. Rahmel
41 US transplant service – legal and operational framework 347
Walter K. Graham, Richard S. Luskin, and Francis L. Delmonico
42 Conclusions 355
Clive J. Lewis

Index 357
Color plate section falls between pages 181 and 182.
