PREFACE

In August 1976 a conference on Transformation Groups was held at the University of Newcastle upon Tyne with participants from the following countries: Canada, Eire, Finland, France, Japan, Norway, Poland, United Kingdom, United States of America, West Germany.

Manuscripts were received from all the speakers at the conference. Other papers were also submitted, four of which were accepted for these proceedings. The articles have been divided into two parts (with summaries and surveys appearing in the second part).

ACKNOWLEDGEMENTS

I would like to to thank very much indeed the following:

The London Mathematical Society and the University of Newcastle upon Tyne for financial assistance towards the conference.

The secretaries of the School of Mathematics, University of Newcastle upon Tyne, for typing the papers. The majority of the typing was by Pauline Harley and Janet McKay. Additional typing was by Joyce Edger and Carol Reynolds

The referees of papers - their assistance and advice was invaluable.
