*LOW DIMENSIONAL TOPOLOGY*

Sussex, 1982

This volume is a record of the talks given at the third topology seminar of the University of Sussex held at The White House, Chelwood Gate, from the 2nd to the 6th August, 1982. I would like to thank Jill Foster and Sheila Collier for their immaculate typing of the transcript and all the staff at The White House for their efforts in making us feel so welcome. On the suggestion of Laurie Siebenmann, I have dedicated this volume to Professor Seifert.
