## Acknowledgments

This book relies very heavily on the information and ideas of others. I am deeply grateful to all the authors whose works form the basis of my own, and above all to those who provided me with additional help and encouragement in the course of conversation and correspondence. The degree of scholarly cooperation that I have received has impressed me greatly. Thus when I say that I accept full and sole responsibility for any misrepresentations and distortions of their works, I mean it with greater sincerity than most such conventional declarations seem to suggest.

I also wish to acknowledge a Personal Research Grant from the Social Science Research Council of Great Britain, which allowed me the time in 1979–80 to lay the foundation of this book.
