Detailed acknowledgments are recorded in the text.

My special thanks are due to Dr. B. Steer, Prof. I. M. James,
Prof. J. C. Becker, Dr. L. Woodward, Dr. W. A. Sutherland, Prof.
S. Gitler and Dr. K. Knapp;

to New College, Oxford, where I held a Guinness research
fellowship from 1974 until 1977;

and to the SFB "Theoretische Mathematik" at the University of
Bonn, where I was 'Gastforscher' from 1977 to 1979.

Much of the material described here first appeared in the thesis
[25], written under the supervision of Dr. Steer, and was the
subject of a course of lectures at Oxford in 1976. I have also
drawn from a seminar on Hermitian K-theory held at Bonn in the
autumn of 1978.
