Preface

Addresses of contributors

Part 1: 3-manifolds

The classification of compact 3-manifolds 3
P. SCOTT

Hyperbolic geometry and 3-manifolds 9
W. THURSTON

Sewing-up link exteriors 27
W. R. BRAKES

Periodic transformations in homology 3-spheres and
the Rohlin invariant 39
L. CONTRERAS-CABALLERO

Part 2: Knot theory

The universal abelian cover of a link 51
D. COOPER

Levine's theorem- a remark 67
L. H. KAUFFMAN

The factorisation of knots 71
C. KEARTON

Seven excellent knots 81
R. RILEY

Part 3: Two-dimensional homotopy theory

Identities among relations 153
R. BROWN and J. HUEBSCHMANN

**On Peiffer transformations, link diagrams
and a question of J.H.C. Whitehead** 203
P. STEFAN

Higher-dimensional group theory 215
R. BROWN

Part 4: 4-manifolds

Actions of compact connected groups on 4-manifolds 241
P. ORLIK
