- coformal type 133
- cohomotopy algebra 104
- co-H-space, Co-H-map 36, 43, 131
- commutator 17, 40
- cross product 114
- cup product 41
- decomposition 63
- decomposable 117
- degree map 113, 115
- desuspension problem 133
- dimension 39
- divided powers 103
- e-invariant 93
- exponential function 15
 - commutator 22
 - group 27, 124
- exterior cup product 40
- formal type 133
- free Lie algebra 15, 17
 - non-associative algebraic object 17
 - group 17
 - monoid 30
 - abelian group 30
 - M-algebra 144
 - M-Lie algebra 150
- graded 14
- Hilton-Milnor theorem 46
- Hilton-Hopf invariant 46
- homotopy Lie algebra 103, 104
- homotopy coefficients
- Hopf algebra 114
- H-space 37
- H-maps 131
- Hurewicz map 113, 114
- integral Lie element 15
- inverse limit 105, 123
- iterated brackets 39
- iterated Whitehead products 38, 39
