

Index

- A-bounded 294
 A-compact 294
 adjoint operator 3
 adjoint relation 5
 algebra surgery 239

 boundary, regular 67
 boundary condition 41,68,315
 _____, Dirichlet 53,68
 _____, Neumann 315
 boundary space 44
 bounded operator 1

 Carleman alternatives 41
 change of dependent
 variable 93f
 Christoffel symbols 134,322
 closed operator 2
 closing 39
 closure of an operator 2
 co-sphere bundle 170
 covariant derivative 134,322
 commutator of differential
 expressions 133f
 _____, compactness 137f
 commutator ideal E 126,131
 commuting unbounded operators 17
 compactness criteria 71f
 _____, of commutators 144
 comparison operator 61,127f
 comparison algebra 127f,157
 _____, minimal 129,161f
 comparison triple 128
 complete spaces,
 _____, with cylindrical ends 246

 condition $(x_j), x=a,d,\dots$ 324
 covariant derivatives 134f, 322
 curvature (Riemannian) 279f, 323

 defect index 7
 defect spaces 6,38
 definite case 41
 Dirichlet condition 53,68
 _____, operator 60,68
 _____, problem 87
 _____, realization 59
 domain (of an
 unbounded operator) 2

 E -symbol 218f
 _____, for periodic
 coefficients 227f
 _____, for polycylinder
 algebra 235f
 elliptic differential
 expression 37
 equivalent triples 93
 essentially self-adjoint 5
 essential self-adjointness 123
 _____, of H_0 103, 111
 _____, of H_0^m 105f,111

 expression (differential) 36
 _____, within reach 127,155,262
 extension (of an operator) 2

 Φ (property) 293
 folpde 126,129
 formal adjoint 36
 Fredholm domain 302
 _____, index 33,293

- _____ operator 33,180,293
 _____ inverse 180,295
 _____,
 distinguished 34,180
 _____, special 295
 Frehse's theorem 118f
 Friedrichs extension 11,71f
 fundamental solution 42,78

 graph (of an unbounded
 operator) 2
 Green inverse 161,181,318
 _____, distinguished 181
 Green's function 78f

 H-compatible expression 157,160
 H_s -comparison
 algebra 257,267f,315f
 Harnack inequality 87f
 Heinz, lemma of 24
 hermitian operator 5
 HS-chain 29
 hull 191
 hypo-elliptic expression 37

 isometry, betw. H_s -spaces 31,268
 indefinite case 41
 irreducible C^* -algebra 130

 K-invariant under
 H-conjugation 33,181

 Landau symbols 320
 Laplace comparison operator 93
 limit circle case 41,53
 limit point case 41,53
 Loewner, lemma of 24

 maximal null space 47
 maximal operator 37

 maximum principle 91
 minimal operator 37
 minimal comparison algebra 129
 multiplication operator 134

 noncompact commutators,
 algebras with 218f
 normal forms 93,94
 _____ Sturm-Liouville 95,151

 order classes 30,267,318
 ordinary diff.expression 37

 periodic coefficients 154f,221
 poly-cylinder algebra 228f
 positive operator 14
 positivity of the Green's
 function 100,130
 preclosed operator 3
 principal part 36
 _____ symbol type 266
 _____ symbol space 193
 projection 14
 positive square root 12

 reach, expression
 within 127,155f,186,262f
 _____, algebra within 266
 _____ general 266
 real operator 10
 realization, of a differential
 expression 35,37
 regular endpoint 45
 regularity, boundary 67f
 Rellich's criterion 75,77,179
 resolvent 12
 _____, compactness 71f
 _____ expansion of
 of H-compat. expr. 158
 _____ formula for Λ^s 139,163

- _____ set 12
- Riesz-v.Neumann extens.thm.8
- second order express.on Ω 132
- secondary symbol space 193
- _____ rel.to formal symbol 207
- _____ local charac.195,211,214
- _____ for Schroedinger operators on \mathbb{R}^n 215f
- self-adjoint operator 4
- semi-bounded operator 10
- separated boundary cond's 48
- singular endpoint 45,49
- Sobolev space 61,157,159,251f
- _____, first 128
- _____ on compact Ω 157
- _____ on noncompact Ω 251f
- _____ of integral order 279f
- _____ local properties 272
- Sobolev estimate 181f,184
- _____ imbedding 182,217,251
- _____, comparison
algebra in 253,257,315
- spectral density matrix 52
- spectral family 15
- spectral theorem 12f
- spectrum 13
- _____ essential 265
- square root of an operator 12
- strongly hypo-elliptic 38
- Sturm-Liouville problem 51,53
- subextending triple 76
- summation convention 60
- surgery, algebra 239f
- symbol of an operator 191,137
- _____ of an algebra 191
- _____ function 170
- _____, formal algebra 187,206
- symbol space \mathbb{M} 131,189,191,145
- _____, principal 193
- _____, secondary 193
- systems of differential
expressions 303f
- tensor 132,322
- tensor products,
topological 226,229,303
- two-link ideal chains 218f,309
- unbounded operator 1
- Vector bundles, compar-
ison algebras on 303f
- wave front space 161f,169f
- Weyl's lemma 39,42,60
