|--|----|-------|---|----|
| Preface | iv | 6.8 | Foetal examination | 31 |
| | | 6.9 | Sex determination | 32 |
| 1 The male reproductive system | 1 | 6.10 | Birth control | 32 |
| 1.1 Structure and function | 1 | 6.11 | Natural methods of birth control | 33 |
| 1.2 The testis and spermatogenesis | 2 | | | |
| 2 The female reproductive system | 6 | 6.12 | Artificial methods of birth control | 34 |
| 2.1 Structure and function | 6 | 6.13 | Surgical methods of birth control – sterilisation | 36 |
| 2.2 The ovaries and oogenesis | 7 | | | |
| 2.3 The menstrual cycle | 9 | 6.14 | Abortion | 36 |
| 2.4 Social aspects of menstruation | 12 | | | |
| 3 Fertilisation and development | 13 | 7 | Growth and development | 38 |
| 3.1 Sexual intercourse | 13 | 7.1 | Factors controlling growth | 38 |
| 3.2 Fertilisation | 14 | 7.2 | Stages of growth in the human life cycle | 41 |
| 3.3 Early development and implantation | 15 | | | |
| 3.4 Stages in development of a human foetus | 16 | 8 | Senescence and ageing | 46 |
| | | 8.1 | Introduction | 46 |
| | | 8.2 | Causes of ageing | 48 |
| | | 8.3 | Changes in the vascular and skeletal system with ageing | 50 |
| 4 The placenta | 18 | 8.4 | Changes in the nervous system with ageing | 52 |
| 4.1 Development and structure | 18 | 8.5 | Other changes with age | 53 |
| 4.2 Placental transfer and hormone secretion | 19 | | | |
| 4.3 The foetus as an allograft | 20 | 9 | Population | 55 |
| 4.4 Rhesus antibody transfer | 21 | 9.1 | The population problem | 55 |
| 4.5 Pathogen transfer | 21 | 9.2 | Measurement of population | 55 |
| 4.6 Drug transfer | 21 | 9.3 | Factors affecting population size | 59 |
| 5 Pregnancy and birth | 23 | | | |
| 5.1 Nutrient requirements | 23 | 10 | World Population | 66 |
| 5.2 Changes in the maternal body | 24 | 10.1 | Demographic transition | 66 |
| 5.3 Initiation of labour | 25 | 10.2 | Population changes in the United Kingdom | 68 |
| 5.4 Stages of labour | 25 | 10.3 | World population growth | 70 |
| 5.5 The neonatal period | 26 | 10.4 | Factors limiting human population growth | 71 |
| 5.6 Lactation | 27 | 10.5 | Problems associated with expanding populations | 72 |
| 6 The control of reproduction | 28 | | | |
| 6.1 Introduction | 28 | Index | | 75 |
| 6.2 Infertility | 28 | | | |
| 6.3 Multiple births | 28 | | | |
| 6.4 Twins | 29 | | | |
| 6.5 Artificial births | 30 | | | |
| 6.6 Sperm banks | 30 | | | |
| 6.7 Parthenogenesis | 30 | | | |
