INDEX

- ADELMAN:** 439–40, 444, 469n.
 Allingham: 263n.
 American Petroleum Institute: 388n.
 Arbitrage equation: 105–7, 131–2, 155–8, 162, 168, 217, 241, 369–70.
 Arrow: 1, 13n, 26n, 30n, 31n, 37–8, 47, 93n, 109n, 199n, 220n, 224n, 247n, 263n, 270n, 275n, 284n, 288n, 310n, 320n, 321n, 378n, 379n, 382n, 385n, 389n, 409n, 411n, 416n, 418n, 425n, 427n, 437n.
 Arrow-Debreu theory of contingent markets: 411ff.
 Atkinson: 300n, 362n.
 Aumann: 15n, 38.

BACKSTOP technology: 175–7, 179–81, 184ff, 191, 340, 343, 350, 468n.
 Barnett and Morse: 464ff, 470n.
 Barrow: 459, 462, 469n.
 Baumol: 93n.
 Bauxite: 344n.
 Becker: 256n.
 Beckerman: 426n.
 Bergstrom: 28n, 92n.
 Berndt: 363n.
 Berry: 208n.
 Bevan: 367n.
 Bewley: 155n, 241n.
 Bliss: 102n, 103n, 192n, 215n.
 Blocking: 13–17, 20, 32, 38.
 Blue whales: 133, 144–7.
 Boiteux: 362n.
 Brannon: 375n.
 Brown: 115n, 134n, 152n.
 Buchanan: 92, 93n.
 Budget constraints: 26–27, 29, –30, 41, 46, 101, 110, 472.
 Burmeister: 194n, 242n, 254n.

CAIRNCROSS: 352n.
 Cartel: 185, 215, 336, 340ff, 352ff.
 Cass: 215n, 219n, 254n, 257n, 261n.
 Catching up: 266ff.
 Chakravarty: 261n, 309n, 320n.
 Chenery: 199n.
 Christy, Jr.: 93n, 152n, 470n.

 Club of Rome: 2.
 Coalition: 13–17, 20, 32, 38, 58–9.
 Cobb-Douglas: see Production function, Cobb-Douglas.
 Cohen: 78n, 94n.
 Cole: 197n, 198n, 480n.
 Common property resources (static, dynamic): 21, 55ff, 73–8, 93–4, 120–1, 126, 142–4, 151, 372–5.
 Competitive equilibrium: 21ff, 29ff, 42, 44–7, 50–1, 53–4, 92, 101, 109, 155, 255.
 Competitive fringe: 340ff, 352ff.
 Conally 'Hot Oil' Act: 75.
 Concave functions: 27, 40, 54, 95ff, 139, 184, 265–7, 280, 283, 287ff, 293ff, 324, 380–1, 421.
 quasi-concave functions: 27, 36, 414–5.
 Contingent commodity: 379ff, 411ff, 433ff.
 Convex set: 23.
 Core: 15, 21, 58.
 Cremer: 351n, 352n, 356n.
 Crutchfield: 118n.

DALES: 77n, 93n.
 Daly: 312n, 480n.
 Dasgupta: 180n, 181n, 187n, 192n, 225n, 238n, 247n, 253, 254n, 263n, 270n, 274n; 284n, 29n3, 295n, 296n, 298n, 301n, 302n, 310n, 319n, 320n, 321n, 342n, 358n, 362n, 396n, 404n, 409n, 418n, 419n, 420n, 438n, 468n, 476n, 480n.
 Das Gupta: 358n.
 d'Aspremont: 275n.
 Debreu: 1, 13n, 30n, 35n, 37–8, 380n, 425n, 437n.
 Depletion allowance: 368–71.
 Diamond: 92n, 275n, 276n, 277n, 281n, 362n.
 Discounting: 297ff, 303ff, 313.
 Discount factor: 103.
 Distribution, intergenerational: 255ff*
 Dixit: 102n, 321n.
 Dobell: 194n.
 Duopoly: 337–9.

INDEX

- EASTWOOD: 319n.
 Efficiency: economic, thermodynamic: 208ff.
 Efficient (inefficient) extraction policies: 165–6.
 Efficiency price: 37.
 Efficient (inefficient) programmes: 213–25, 241, 257–60, 272, 284, 286ff, 315ff.
 Effluent taxes under uncertainty: 400–9.
 Effluent quotas under uncertainty: 404–9.
 Elasticity of demand: 325ff.
 Elasticity of substitution: 199ff, 205ff, 225, 475.
 Enclosure movement: 77–8.
 Energy: 208–12.
 Essential (inessential) exhaustible resources: 196ff.
 Expectations, adaptive: 247–51, 253.
 Expectations, rational: 162–3, 227ff, 155ff, 337, 349, 434–6, 455ff, 473.
 Exploration: 387ff, 427ff.
 Export of resources: 313ff.
 Externalities: 12–13, 39–94, 439ff, 472.
 Externalities, markets for: 44–54, 92–3.
 Extraction costs: 158–9, 161, 164n, 167–80, 190–1, 324, 333–4, 349–57, 395, 451–3.
 FARRELL: 299n.
 Finley: 77n.
 Fisher: 152, 398n.
 Fishery: 18–21, 55ff, 120–6, 129, 151
 Foley: 51n, 54n, 92n, 93n.
 Foresight, imperfect: 248–9.
 Foresight, perfect: 230–1, 241.
 Forrester: 2, 4, 197n, 225n, 445, 480n.
 Forward markets: 100ff, 108–9, 156, 160–1, 163, 166, 174, 186, 191, 227, 253, 256, 291, 440ff, 472.
 Foss: 75n.
 GAFFNEY: 192n, 375n.
 Gale: 259n, 267n.
 Gaskins: 358n.
 Gevers: 275n.
 Gilbert: 181n, 192n, 321n, 358n, 395n, 438n.
 Gordon: 78n, 93n.
 Gorman: 275n, 293n.
 Gray: 192n.
 Green: 94n, 419n, 434n, 438n.
 Griliches: 118n.
 Grossman: 394n, 434n, 435n, 437n.

Steady state: 102–3, 157.
Stern: 300n, 321n, 362n.
Stiglitz: 180n, 181n, 187n, 192n, 195n, 225n, 238n, 247n, 253n, 254n, 302n, 321n, 334n, 342n, 358n, 362n, 375n, 381n, 387n, 394n, 396n, 404n, 409n, 418n, 419n, 420n, 423n, 434n, 435n, 438n, 468n, 480n.
Strong equilibrium: 14, 16, 20.
Surrey: 469n.
Sweeney: 334n, 358n.
Switching date (between deposits): 173ff.
TAXATION: 52ff, 142–4, 151, 290–1, 358, 361ff, 407–9, 421–2.
 capital gains: 368.
 Pigouvian: 52–4, 91, 136.
 profits: 365–6.
 pure tax scheme: 68–9, 88.
 sales: 363–5.
 U.K. petroleum revenue tax: 371–2.
Taylor Grazing Act: 75.
Taylor series cases: 117n, 381.
Technical progress,
 disembodied: 196, 207, 224.
 resource augmenting: 197, 207ff, 224–5.
Thermodynamic efficiency: 208ff.
Thermodynamic potential: 208.
Time magazine: 159n, 178n.
Time minimizing policy: 120, 128–9.
Tobin: 205n, 206n.
Tucker: 38n.
Turnovsky: 247n.
UNCERTAINTY: 11–12, 181, 358, 377ff, 389–90, 395ff, 411ff, 427ff, 474–5.
Upset: 13–17, 32.
Utilitarianism: 260–81, 292–3, 299, 307–12.
Utility discount rate: 263.
Utility function: 12, 40, 45, 54, 98–9, 263, 271ff, 293, 393, 414ff.
Uzawa: 128n, 229n.
VEIL OF IGNORANCE: 269ff.
Vogely: 375n.
von Neumann: 271–2, 379n, 393.
von Stackelberg: 38, 340, 354, 358n.
von Weizsacker: 266n, 320n.
WAN: 169n, 194n, 226n, 263n.
Weinstein: 153n, 225n.
Weierstrass's theorem: 265.
Weitzman: 78n, 94n, 245n, 351n, 352n, 356n, 403n, 406n, 409n.
'Wildcat' drilling: 387–8.
Williamson: 275n.
Wilson: 397n, 409n, 423n, 438n.
Winter: 358n.
Wood: 353n.
World models: 198, 225n.
YAARI: 99n, 219n, 254n, 257n, 274n, 276n, 277n.
ZECKHAUSER: 54n, 153n, 225n.
Zellner: 118n.
