## INDEX OF SUBJECTS

- accelerator model, 157
- accounting framework, 25 et seq.
- accounting structure, 374
- additive production functions, 154
- additivity, 131
- adjustments, 79
- ad valorem taxes, 41
- Advance Corporation Tax, 392
- aggregate energy demand, 286
- aggregate forecasting equation, 323
- aggregation
  - linear, 16
  - logarithmic models, 16
  - 'perfect', 16
- Almon variables, 95
- Almost Ideal Demand System, 127
- asset disaggregation, 415
- asset-leasing, 152
  
- balance sheets, 396
- bank deposits, 415
- Bank of England, 330
- Bank Rate, 181
- banks, 389
- Banks' Base Rate, 181
- BASIC, 108
- Bayesian techniques, 415
- benefits, 378, 384
- borrowing, short-term, 399
- British Leyland, 15
- British National Oil Corporation, 395
- budget shares, 125
- building societies, 180
  
- Cambridge Econometrics, xxii
- Cambridge Growth Project, xxi
- Cambridge Multisectoral Dynamic Model, xxii, 4
- capacity utilisation effects, 232
- capital allowances, 396
- capital gains, 165, 417
- 'catch-up' effect, 350
- charitable institutions, 413
  
- child benefits, 378
- Chow test, 103
- classical market-clearing theories of
  - the labour market, 247
- classical theory, 87
- classification converters, xxii
- Cobb-Douglas production function, 97
- Cochrane-Orcutt method, 208
- Commodity Flow Accounts, 30
- commodity taxes, 35
- company liquidity, 185
- company sector, 389 et seq.
- computable general equilibrium, 20
- computable macroeconomic model, 13
- computer software, 105 et seq.
- Conservative Government, 348
- constant returns, 155, 159
- consumers' expenditure, 125 et seq.
- consumption function, 138-40
- contractual saving, 379
- Corporation Tax, 396
- cost of capital, 45, 153-7
- count of the variables and equations, 50
- Cowles Commission, 87
- current cost accounting, 301
- cycle, 80
  
- debentures, 417
- debt interest, 416
- demand theory, 129
- demographic composition, 273
- depreciation, 239
- de-stocking, 185
- disaggregation, 15-19
- dividends, 392
- dummy variables, 103
- DUMP file, 118
- Durbin-Watson test, 92
- Dutch Disease, 436
- dwellings, 181
- dynamic
  - misspecification, 284
  - model, xxi

- multipliers, 68
  - specification, 87, 92
- 'earned-income relief', 378
- earnings, 341 et seq.
- econometric packages, 115
- economic activity rates, 273
- Economic and Social Research Council, xxiii
- economic theory, 13, 19
- economies of scale, 204, 258
- effective dollar rate, 447
- effective sterling rate, 448
- efficiency loss, 88
- elasticity
  - compensated, 129
  - compensated own-price, 135
  - expenditure, 129
  - import demand, 226
  - import own-price, 216
  - industrial investment, 55
- electricity, 276, 277
- employment, 247 et seq.
- employment responses, 58
- energy, 275 et seq.
  - coefficient, 276
  - demand system, 279
  - use, 276
- equilibrium
  - balance of payments, 21
  - general, 14, 20
  - long-run, 94
- ESRC Macroeconomic Modelling Bureau, xxiii
- estate agents, 183
- estimation procedures, 87 et seq.
- eurodollar market, 414
- exchange-rate model, 433
- exogenous variables in the model, 51
- expectations-formation, 438
- export equations, 203
- export prices, 311 et seq.
- exports, 201 et seq.
- external finance requirement, 399
- factor taxes, 35
- family allowances, 378
- family income supplement, 384
- female
  - employment, 271
  - participation rates, 271
- FIML, 87, 96
- financial
  - companies, 389
  - modelling, 413
    - stocks and returns, 411 et seq.
- flexible functional form, 99
- flow of funds, 396
- forecasting performance, 18
- forecasts, 82
- FORTRAN, xxiv
- fuel
  - coefficients, 276
  - imports, 201
  - substitution, 277-82
- full employment, 21
- Full Information Maximum Likelihood Estimation, 87, 96
- functional disaggregation, 17
- gas use, 285
- Gauss-Seidel algorithm, 114
- general equilibrium, 14
- Generalised Instrumental-Variable method, 208
- generalised Leontief function, 279
- gilt-edged market, 419
- gilts, 417
- habit-persistence hypothesis, 343
- heat generation, 276
- Heath government, 346
- Hicksian demand functions, 131
- homogeneity, 131
- household budget, 125
- household sector, 376
- housing, 180, 181
- hyperinflation, 15
- hypothesis-testing, 87
- IDIOM, 107
- IMF International Financial Statistics, 206
- imperfect markets, 204
- import competition, 305
- import prices, 311 et seq.
- import-ratio equations, 226
- imports, 201 et seq.
- income-outlay loop, 374
- incomes policy, 341 et seq.
- income tax, 373 et seq.
- indexation, 416
- indirect translog, 127
- indivisibilities, 253
- industrial
  - and commercial companies, 389
  - disaggregation, 4
  - profits, 45
- 'inferior' commodities, 134

- inflationary expectations, 420  
inflationary shocks, 78  
Inland Revenue, 35  
input-output coefficients, xxii  
input-output models, 8, 23  
input-output tables, 36-43  
Institute for Employment Research, 366  
instrumental variables, 89  
interest-rate effects, 185  
interest rates, 443  
international fiscal expansion, 201  
intra-industry trade, 205  
inventory holdings, 185  
investment  
    incentives, 164  
    income, 378  
    strategy, 85  
    treatment of, 151 et seq.  
‘investment income surcharge’, 378
- Keynesian approach, 90  
Keynesian model, 88  
Kuhn-Tucker condition, 210
- Labour government, 346  
Labour Party, 347  
lag polynomials, 95  
Lagrange Multiplier test, 92  
lag structures, 24  
law of one price, 320  
leasing arrangements, 164  
life assurance and superannuation funds, 35  
likelihood-ratio principle, 99  
Linear Expenditure System, 96  
liquidity of companies, 56  
Liverpool Economic Research Group, 248  
London Business School, 8  
long-term forecasting, 15  
low-paid workers, 348
- macroeconomic model, 4  
‘maintained position’, 346  
marginal propensity to consume, 54  
market rules, 15  
mark up on costs, 59  
mark up pricing, 295  
married women, 273  
Marshall-Lerner conditions, 434  
MDM, 4  
MDM, operational version, xxii  
mean-variance analysis, 423  
medium-term financial strategy, 433  
medium-term forecasts, 82  
Minimum Lending Rate, 181
- misspecification, test for, 92  
model of inventory behaviour, 185  
model specification, 109-13  
MODULECO, 107  
monetary growth, 443  
Monte Carlo, 300  
mortgage-interest tax relief, 379  
mortgage stock, 181  
MREG, 107  
MTFS, 433  
multicollinearity, 230  
multiple discriminant model, 407
- Nash equilibrium, 85  
National Health Service, 270  
National Institute of Economic and Social Research, 8  
National Institute model, 437  
National Insurance Fund, 383  
National Insurance Surcharge, 40  
National Savings, 422  
neoclassical model  
    of investment, 166  
    of investment behaviour, 153  
neoclassical production function, 249  
New Earnings Survey data, 257  
non-negativity, 131  
normal-cost hypothesis, 302-5  
normal working week, 254  
North Sea oil, 2  
North Sea taxes, 395  
numerical disaggregation, 16
- occupational pensions, 379, 385  
oil company profits, 393  
oil reserves, 443  
oligopolistic pricing, 312  
OPEC, 3  
OPEC oil-price crisis, 2  
Ordinary Least Squares, 88  
overseas assets, 415  
overseas investment, 415  
‘over shooting’, 199  
overtime, 253
- Paasche price indices, 43  
partial-adjustment mechanism, 94  
part-time jobs, 273  
PASCAL, 108  
payout ratios, 406  
pensioners, 273  
pension rights, 180  
pension, state, 382  
personal savings ratio, 127

- personal taxation, 376
- Petroleum Revenue Tax, 393
- planning, 84
- policy instruments, 83
- portfolio allocation, 423
- post-Budget forecasts, 79
- price
  - elasticities, 57
  - historic-cost, 295
  - homogeneity, 212
  - inflation, 3
  - law of one price, 320
- prices, 293 et seq.
- private-sector dwelling investment, 180
- production function, 97
- productivity
  - bargaining, 348
  - growth, 266
- product variety, 204
- product-wage, 262
- profitability
  - decline in, 407
  - of investment, 153-7
  - variables, 156
- profit maximisation, 20
- profits, 293 et seq.
- properties of the model, 68
- property income from abroad, 415
- public sector
  - education, 270
  - employment, 270
  - long-term debt, 416
  - ownership of companies, 391
- purchasing-power-parity theory, 418, 435
  
- quantitative rationing, 165
- quarterly model, 442
  
- rates of return, 415
- Rate Support Grant, 384
- rational behaviour, 119
- rational-expectations
  - hypothesis, 420
  - models, 165
- real-wage-resistance hypothesis, 61, 344
- redemption yield, 419
- reduced form, 88
- restrictions of demand theory, 141
- restrictions, symmetry, 129
- returns to scale, 155, 159, 204, 258
- revaluations, 415
- risk premia, 420
- Rotterdam model, 98, 129-32
- royalties, North Sea, 395
  
- savings ratio, 127
- Scandinavian, 297
- scenario planning, 82
- secondary fuels, 276
- secondary workers, 273
- Selective Employment Tax, 41
- self-employed, 271
- serial correlation, 93
- service exports, 201
- sexual equality, 273
- sheltered sectors, 297
- short-time working, 255
- sickness benefit, 384
- simulations, 68
- simultaneous model, 89
- size of the model, 88
- SNA, 6
- Social Accounting Matrix, 20
- social-capital formation, 151, 179
- Social Contract, 346
- social security benefits 373 et seq.
- social security system, 373
- social-welfare function, 14
- specific duties, 41
- speculative activity, 165
- stamp duty, 183
- standard working week, 253
- state pension payments, 382
- static input-output model, 8
- statistical discrepancies, 46
- sterling
  - devaluation, 239
  - effective exchange rate, 67
  - exchange rate, 433 et seq.
- stochastic difference equations, 89
- stock-adjustment model, 14, 181
- stock appreciation, 45
- stockbuilding, 185 et seq.
- stock market, 413
- stock of mortgages, 181
- stock-output ratios, 189
- strength-of-incomes-policy index, 342
- strike, iron and steel, 1
- strike, miners', 1
- structural
  - approach, 435
  - break, 101
  - change, 1
  - stability, 101-3
- subsidies, 41
- summary equation, 53
- supplementary benefits, 384
- Supplementary Petroleum Duty, 395

## INDEX OF SUBJECTS

507

- target nominal-wage increase, 348  
 'target' real wage, 342  
 tastes, 130  
 tax  
   and transfer system, 373  
   exhaustion, 405  
   liability, 376  
   relief, 379  
 technology, 266  
 temperature, 281  
 test of a model, 14  
 Thatcher government, 342  
 theory, 13 et seq.  
 theory of demand, 129  
 three-day week, 1  
 time-series data, 43  
 Tobin's Q-variable, 156  
 transcendental logarithmic unit-cost  
   function, 279  
 transfer costs of building and land, 183  
 Treasury Bill rate, 441  
 Treasury model, xxiii  
 TROLL, 107  
 Two-Stage Least Squares, 440  
 UK Central Statistical Office, xxiii  
 UK Department of Employment, 42  
 UK Department of Industry, 206  
 UK Department of Trade, 43  
 UK Department of Trade and Industry, xxiii  
 unemployment, 201, 247  
 unemployment benefits, 378, 383  
 United States, 152  
 UN System of National Accounts, 26-30  
 UN Yearbook of Statistics, 206  
 US Corporate Bond Market, 420  
 user cost of capital, 154  
 uses of the model, 82  
 utilisation of capacity, 329  
 variety hypothesis, 204  
 VAT, 7  
 wage rates, 361-2  
 wholesale prices, 294  
 worker-hours relationship, 262  
 working population, 273  
 work-sharing, 253  
 World Bank, 20
