

INDEX

additive function	95	generating subcategory	70
affine graphs	44	Grothendieck group	95
APR-co-tilt	194	heart	57
APR-co-tilting module	194	homotopic	27
APR-tilt	126	homotopy category	27
APR-tilting module	126	irreducible morphism	33
Auslander-Reiten triangle	31	isometric	100
bilinear form	98	isometry	100
bimodule of irreducible maps	39	iterated tilted algebra	173
bounded	26	Krull-Schmidt category	26
bounded above	26	locally bounded k -algebra	25
bounded below	26	locally representation-finite	197
bound quiver	46	locally support-finite	197
brick	164	mapping cone	28
canonical exact sequence	119	mesh category	54
canonical tubular algebra	91	mesh ideal	54
Cartan matrix	97	minimal wild quiver	149
cohomological functor	4	morphism of sextuples	2
cohomology objects	27	morphism of translation quivers	41
commutativity relation	46	Nakayama functor	37
complex	4	normalized triangle-equivalence	158
concealed algebra	149	one-point coextension	65
contravariant cohomological functor	4	one-point extension	65
contravariant representation	47	partial tilting module	141
covariant cohomological functor	4	path	38
cycle	39	path algebra	45
derived category	29	path category	54
deviation	26	perpendicular category	144
differential complex	26	piecewise hereditary algebra	152
dimension vector	96	polarization	41
directed	39	predecessor	45
directing	39	preprojective component	190
direct predecessor	45	proper epimorphism	10
direct successor	45	proper monomorphism	10
Dynkin graphs	44	quasi-isomorphism	27
enough S -injectives	11	quiver of a Krull-Schmidt category	39
enough S -projectives	11	relation	46
Euler characteristic	98	repetitive algebra	59
exact category	10	(S)-condition	182
exact functor	4	separated radical	182
Ext-injective	128	separating subcategory	136
Ext-projective	128		
finite M -codimension	104		
finite subcategory	168		
Frobenius algebra	25		
Frobenius category	11		

sextuple	1	tame concealed algebra	149
sincere	96	t-category	57
S-injective	10	tiltable	171
sink	48	tilted algebra	133
sink morphism	35	tilting module	118
slice	134	torsion pair	58
source	48	torsion theory	58
source morphism	35	translation	41
split exact sequence	27	translation functor	1
splitting idempotent	26	translation quiver	41
splitting tilting step	173	triangle	2
S-projective	10	triangle-equivalence	4
stable category	11	triangle-equivalent	4
stable translation quiver	41	triangulated category	3
stalk	26	triangulation	2
stalk complex	26	trivial extension algebra	25
standard sextuple	16	truncated complex	29
successor	45	tubular algebra	91
suspension functor	11	t-structure	57
		width	26
		zero relation	46
