Table of Contents

[More information](#)CONTENTSINTRODUCTION

<u>CHAPTER I</u>	<u>The algebra of groupoids</u>	1
	Introduction	
1.	Groupoids	1
2.	Morphisms, subgroupoids and quotient groupoids	6
3.	Transitive and totally intransitive groupoids	13
<u>CHAPTER II</u>	<u>Topological groupoids</u>	16
	Introduction	
1.	Basic definitions and examples	17
2.	Local triviality	31
3.	Components in topological groupoids	44
4.	Representations of topological groupoids	49
5.	Admissible sections	57
6.	The monodromy groupoid of a locally trivial groupoid	63
7.	Path connections in topological groupoids	74
<u>CHAPTER III</u>	<u>Lie groupoids and Lie algebroids</u>	82
	Introduction	
1.	Differentiable and Lie groupoids	83
2.	Lie algebroids	100
3.	The Lie algebroid of a differentiable groupoid	109
4.	The exponential map and adjoint formulas	125
5.	Infinitesimal connection theory and the concept of transition form	139
6.	The Lie theory of Lie groupoids over a fixed base	157
7.	Path connections in Lie groupoids	167
<u>CHAPTER IV</u>	<u>The cohomology of Lie algebroids</u>	185
	Introduction	
1.	The abstract theory of transitive Lie algebroids	187
2.	The cohomology of Lie algebroids	197
3.	Non-abelian extensions of Lie algebroids and the existence of transitive Lie algebroids with prescribed curvature	212
4.	The existence of local flat connections and families of transition forms	233
5.	The spectral sequence of a transitive Lie algebroid	241

<u>CHAPTER V</u>	<u>An obstruction to the integrability of transitive Lie algebroids</u>	259
	Introduction	
1.	Results	260
2.	Epilogue	268
<u>APPENDIX A</u>	<u>On principal bundles and Atiyah sequences</u>	272
	Introduction	
1.	Principal and fibre bundles	273
2.	Quotients of vector bundles over group actions	277
3.	The Atiyah sequence of a principal bundle	282
4.	Infinitesimal connections and curvature	291
<u>APPENDIX B</u>	<u>On Lie groups and Lie algebras</u>	308
	Introduction	
1.	Definitions and notations	308
2.	Formulas for the right derivative	310
<u>APPENDIX C</u>	<u>On vector bundles</u>	313
<u>REFERENCES</u>		317
<u>INDEX</u>		323
