

INDEX

- Action of a group 182
- Action with (without) inversions 183
- Action, bounded 215
- Action, free 185
- Action, properly discontinuous 165
- Adjoining a space 52
- Algorithm 245
- Algorithm, partial 245
- Almost Stability Theorem 238
- Amalgamated free product 30
- Amalgamated subgroup 30
- Arrow 64
- Associated subgroups 35
- Attaching a space 52
- Automatic group 288
- Automorphisms of free groups 132
- Automorphisms, Whitehead 289

- Barycentric subdivision 147
- Base group 35
- Base-point 74, 123
- Basic neighbourhood 154
- Basis 13
- Bass-Serre theory 182
- Borsuk-Ulam theorem 104
- Boundary 121
- Bounded action 215
- Bounded set 215
- Britton's Lemma 37, 46, 47
- Brouwer's Fixed Point Theorem 87
- Bunch of circles 92

- Cancellation 28
- Cancelling a subset 90
- Canonical reduction 5, 8, 252
- Cayley graph 182
- Cell 121
- Cell, indexed 141
- Cell subdivision 146
- Church's thesis 244
- Circle 113
- Circuit 113
- Coalescence 28
- Cohomological dimension one 242
- Complex 121
- Complex, powerless 139
- Complex, simplicial 139
- Complex with simple boundaries 139
- Component 65, 114, 122
- Computable group 265
- Cone 52, 80
- Conjugacy problem 254
- Conjugate isomorphic 202
- Connected 65, 114, 122
- Consequence 18
- Contractible, locally 154
- Contractible space 79
- Contracting of trees 119
- Contraction 79
- Convex set 60
- Core 221
- Covering 96
- Covering belonging to a subgroup 153
- Covering complex 141-3
- Covering graph 140
- Covering map 96, 140-3
- Covering, regular 164
- Covering space 96
- Covering transformation 164
- Covering, universal 162
- Cyclic loop
- Cyclic permutation 16
- Cyclically irreducible loop 220
- Cyclically reduced 15, 28

- Defining relation 18
- Defining relator 18
- Deformation retract 88
- Deformation retract, strong 88
- Degree 101
- Diameter 215
- Diamond Lemma 6, 8
- Dihedral group 20
- Direct limit 71
- Direct product of groupoids 66
- Direct system 71
- Directed set 70
- Discrete groupoid 64
- Disjoint union 50
- Disk 52

- Edge group 198
- Edge 64, 113, 121
- Edge subdivision 146
- Edge-free graph 223
- Edge-groupoid 123
- Edge-homotopic 123
- Edge-loop 114
- Edge-path 114
- Elementary neighbourhood 96
- Elementary reduction of a path 123
- Elementary reduction of a word 4, 28
- End of a path 54, 113
- End of an edge 113
- Endomorphism of a free group 134, 135
- Ends of a group 242
- Exponent-sum 252

- Final vertex 64
- Finite presentation 18
- Finitely generated intersection property 219
- Finitely presented group 18

- Fold 223
- Forest 114
- Forest, maximal 116
- Fox comb 81
- Free action 185
- Free groups 1, 2, 13
- Free homotopy 76
- Free monoid 3
- Free on X 2
- Free product 24
- Free product, amalgamated 30
- Freiheitssatz 282
- Full subcomplex 122
- Full subgraph 114
- Full subgroupoid 65
- Fundamental group 74, 123, 199
- Fundamental groupoid 74, 123
- Fundamental Theorem of Algebra 103

- G -graph 182
- G -set 182
- Generating symbols 17
- Generators 17
- Geometrical realisation 149
- Glueing lemma 49
- Gödel numbering 250
- Graph 113
- Graph, connected 114
- Graph of groups 198
- Graph of groups, generalised 198
- Group, fundamental 74, 123, 199
- Groupoid 62
- Groupoid, connected 65
- Groupoid, discrete 64
- Groupoid, fundamental 74
- Groupoid, tree 64
- Grushko's theorem 227

- $H_0(M)$ 266
 Hall group 229
 Ham Sandwich Theorem 104
 Handle 95
 Hawaiian earring 107
 Higman's Embedding Theorem 274
 HNN extension 34, 35
 Homomorphism of coverings 160
 Homomorphism of groupoids 65
 Homotopy (in complexes) 123
 Homotopy class 57
 Homotopy equivalence 78
 Homotopy inverse 78
 Homotopy of loops, free 76
 Homotopy of maps 77
 Homotopy of paths, standard 55
 Homotopy of paths, variable-length 55
 Hopfian 12
 Howson property 219
 Hyperbolic group 288

 Identification space 51
 Identification topology 51
 Identity for partial multiplication 62
 Indexed cell 141
 Initial vertex 64
 Inverse of a cyclic loop 121
 Inverse of a path 58, 114
 Inverse of an edge 113
 Inversions 183
 Irreducible path 114
 Isomorphism of complexes 122
 Isomorphism of coverings 160
 Isomorphism of graphs of groups 202
 Isoperimetric inequality 287

 Join 50
 Join, weak 107

 Klein bottle 93
 Kurosh subgroup theorem 175, 212, 293
 Kurosh system 178

 Labelling 133, 168
 Lebesgue number 53
 Leftmost reduction 252
 Length 4, 27, 33, 42
 Letter 4
 Lies above 151
 Lift of a map 151, 158
 Lift of a path 98
 Listable set 246
 Locally bijective 184
 Locally contractible 154
 Locally injective 184
 Locally path-connected 100
 Locally surjective 184
 Loop 54, 113
 Loop, cyclic 121
 Loop, cyclically irreducible 220
 Loop, simple 113

 M. Hall group 229
 Machine, modular 265, 279
 Machine, Turing 278
 Map 74, 112
 Maximal forest 116
 Maximal tree 117
 Membership problem 262
 Modular machine 265, 279
 Morphism 122
 Multiplication, partial 62

 Negative for an edge 217
 Neighbourhood, basic 154
 Neighbourhood, elementary 96
 Nielsen reduced 188, 253

- Nielsen transformation 190
- Nielsen's theorem 189
- No Retraction theorem 87
- Normal Form theorem 5, 26, 31, 36
- Number of sheets 142

- Orbit, reversing 217
- Order of f at z_0 106
- Orientation 132, 185
- Orientation inwards 132
- Outdegree 132

- Partial algorithm 245
- Partial function 244
- Partial multiplication 62
- Partial recursive function 243
- Path 54, 113
- Path, irreducible 114
- Path, reducible 114
- Path, simple 113
- Path, standard 54
- Path, trivial 54
- Path-component 60
- Path-connected space 60
- Path-connected, locally 100
- Piece 286
- Pinch 37
- Points away from 216
- Points towards 216, 239
- Powerless complex 139
- Presentation 18
- Presentation, finite 18
- Presentation using a maximal tree 127
- Product of paths 57
- Properly discontinuous action 165
- Pseudo-HNN extension 35
- Pushout 29, 66, 67

- Quotient graph 183
- Quotient topology 51

- Rank 13
- Real projective space 52
- Realisation, geometric 149
- Recursive set 245
- Recursively enumerable (r.e.) set 245
- Reduced as written 15, 27
- Reduced form 33, 46
- Reduced Form theorem 32, 37
- Reduced set, Nielsen 188
- Reduced set, Nielsen 253
- Reduced set, weakly 194
- Reduced word 4, 27
- Reduced word, cyclically 15, 28
- Reduced, weakly 254
- Reducible path 114
- Reduction (of a word) 4
- Reduction (of path), elementary 123
- Reduction (of word), elementary 4, 28
- Reduction, canonical 5, 8
- Reduction, leftmost 8
- Regular covering 164
- Reidemeister-Schreier theorem 174
- Relations 18
- Relations, defining 18
- Relators 18
- Relators, defining 18
- Relators of the first kind 126
- Relators of the second kind 126
- Representative in the large 178
- Representative tree 185
- Residually finite 11, 27, 28, 42, 47
- Retract 87
- Retract, deformation 88
- Retraction 87
- Reversing orbit 217
- Rouche's theorem 103

- Schreier's subgroup theorem 170, 212
 Schreier's subgroup theorem, weak form 167
 Schreier transversal 169, 173, 187
 Segment 3
 Semi-locally simply connected 154
 Sheets, number of 142
 Simple group 44, 45, 259, 276
 Simple path 113
 Simplicial complex 139
 Simply connected 79
 Skeleton 121
 Small cancellation theory 286
 Sphere 52
 SQ-universal 45
 Stabiliser 205
 Stable letter 35
 Standard path 54
 Standardisation 54
 Star-shaped set 79
 Start (of a path) 54, 113
 Start (of an edge) 113
 Starting vertex 141
 Strong deformation retract 88
 Structure Theorem, First 208
 Structure Theorem, Second 210
 Subcomplex 121
 Subcomplex, full 122
 Subdivision 146
 Subdivision, barycentric 147
 Subdivision, cell 146
 Subdivision, edge 146
 Subgraph 114
 Subgraph, full 114
 Subgroupoid 64
 Subgroupoid, full 65
 Sufficiently large subgroup 153
 T_1 topology 50
 Tietze transformation 21, 22
 Torus 93
 Total function 244
 Translation of an edge 213
 Tree 114
 Tree, maximal 117
 Tree, representative 185
 Tree groupoid 64
 Tree product 201
 Treed HNN group 201
 Trivial path 54
 Turing machine 278
 Universal cover (graph of groups) 205
 Universal covering 162
 Unwrapping the circle 97
 Van der Waerden 7
 Van Kampen's theorem 83, 124
 Variable-length homotopy 55
 Vertex group 65, 198
 Vertex, starting 141
 Vertices 64, 113, 121
 Von Dyck's theorem 19
 Weak join 107
 Weak topology 50
 Weakly reduced 194
 Weakly reduced set 254
 Whitehead automorphisms 289
 Winding number 103
 Word 4
 Word problem 254
