

INDEX

- Auerbach basis 4
 averaging 64-68, 72-73

 Banach-Mazur distance 2, 51, 58, 68
 basis constants 123-132

 bilinear forms 23, 110-112

 C*-algebras 85-87, 121
 cone-summing norms 163-169
 cotype 2 69-71, 79, 85-87, 121,
 122, 126-127, 156

 2-dominated 97-103, 115, 121,
 126-127, 156

 extension theorem 60, 167

 factorization theorem 60, 122, 154, 167
 finitely represented 5

 Gaussian averaging 91-96
 Gordon-Lewis constant 125
 Grothendieck
 constant 105, 109, 114
 inequality 104-117, 120, 127-129
 property 116, 127

 integral norms 150-155, 158
 interpolation theorem 118-119

 Khinchin's inequality 74-78
 Kwapien's theorem 122

 lifting 52
 linear lattice 8
 local reflexivity 156
 Lotz's theorem 167
 L-space 162, 163, 167
 \mathfrak{L}_p -space 8

 majorizing norm 168
 M-space 162, 163

 normed lattice 8
 norming subset 3
 1-nuclear norm 17
 p-nuclear norm 41
 nuclear operator 19

 operator ideal norm 17
 Orlicz property 43, 79, 141

 Pietsch's theorem 54-63
 Pisier's theorem 139-141
 projection constants 7, 38, 50, 58,
 73, 81-84, 94, 99,
 116, 128, 141, 147

 p-summing norm 31

 tensor products 22-23, 113-114,
 145-149

 trace 13-15
 trace duality 16, 18-19, 47-49,
 150-151, 153, 164
 type 2 69-71, 100, 122, 156
