Index

Adams, J., 39, 48
Agbrigg wapentake, Yorkshire, 171n
age structure, back projection, 195–8, 200–7, 215–9, 282–3, 455; changes in, 443–50; female population, 104–18; life tables, 708–14; migrants, 200–2, 277–8, 633–5; mortality rates, 110–1, 215–6, 249–53; quinquennial totals by back projection, 528–9; sex ratios, 591; size of age groups, 103–4
aggregative tabulations, 5–6; back projection, 7–8; compensating for differences in length of registration, 56–62; correction for delayed baptisms, 97–102; correction of nonconformity, 100–2; final inflation ratios, 136–42; geographical distribution of sample, 38–45; names of local historians providing tabulations, 490–2; national inflation ratios, 66–76, 83–8, 96; parishes contributing data, 485–9; population size bias, 46–56, 61–5; quality control, 16–8; representativeness of data, 33–56; sequential sampling, 694–6; time limits, 18–9; uses of, 7–8
agricultural regions, distribution of mortality crises, 687–92; distribution of sample parishes, 43–6; population size weighting, 55–6
agriculture and balance of population, 458–9, 461; as basis of prosperity, 1, 406; harvest failure and mortality crises, 340–1, 655, 666–7, 669–72, 675–81; harvest fluctuations, 305–7, 312–3, 325, 340–1, 345–7; improvements in productivity, 404, 407, 451, 475; industrialization of, 476; and population growth ratios, 38; and seasonality of births, 292; and seasonality of marriages, 303–5; and vital rates, 319, 345–7; see also famine; food prices; wheat prices
Alcester, Warwickshire, 233n, 248
Aldenham, Hertfordshire, 233n, 248
Almon lags, 359
Almondbury, Yorkshire, 703n
altitude, distribution of sample parishes and incidence of mortality crises, 45, 687–9, 691–2
amenorrhea, 363, 370
Andrews, J., 9
Anglican church, causes of non-registration, 103; communicants, 563–6, 569–70; 574; and growth of nonconformity, 89–92; marriage laws, 29; registration quality, 4, 15, 130–7, 152–3; and seasonality of marriages, 298; see also parish registers
annual crude rates, births, deaths, and marriages, 311–2, 531–5; migration, 531–5
Appleby, A. B., 313n, 329n, 335n, 340n, 341n, 354n, 371n, 416n, 666n, 669n, 671n, 672n, 679n, 680n, 685n
Armengaud, A., 580n
army, effect of warfare on sex ratios of burials, 128; exclusion from censuses, 104, 199–200, 592–3; loss of life, 220
Ashbrittle, Somerset, 126
Asia, 482
760 Population History

asiatic cholera, 655
Asteraki, J., 248n
Australasia, English emigration to, 119
Austria, seasonality of deaths, 296
Aylesbury, Buckinghamshire, 613, 615n, 616–9

back projection, derivation of life tables for, 708–14; reliability of results, 454–7; comparison with earlier estimates, 563–87; sensitivity tests, 269–84, 455–6, 563; techniques, 7–8, 195–9, 715–38; see also age structure; celibacy; fertility; gross reproduction rate; life expectancy; migration; mortality; net reproduction rate; nuptiality; population; production and consumption

Bacon, Liber Regis, 599
Bailey, N. T. J., 656n
Baines, D. E., 223n
Baker-Bates, E. T., 663n
Banbury, Oxfordshire, 248

baptism, age at, 289; annual totals, 536–44; baptism/burial deficits, 164–70; comparisons with other series, 170–4; and civil registration, 132, 290; compensating for differences in length of registration, 56–7, 60–2; conversion of totals of births, 89, 140–1, 561; correction for delays in, 100–2; correction for nonconformity, 100–2; delays in, 4, 15–6, 89, 96–100; demographic representativeness of sample, 34; final inflation ratios, 136–42, 583–4; growth rates, 163–4; inflation of sample data to national totals, 66–76; London incorporated into national totals, 77–83; mass baptism, 21; missing events, 75; and mortality crises, 363; national inflation ratios, 84–8; by nonconformists, 89–92, 95, 136; implied population growth ratios, 48; population size weighting, 62–5; registration deficiency, 19–30, (detection) 19–23, 697–704, (correction) 31–2, 705–7; Rickman’s 1801 survey, 576–8, 580–4, 597–630; Rickman’s 1841 survey, 572–4, 624–30; seasonal fluctuations, 286–93, 295–6; sex ratios, 126–8, 224–5; weighting factors, 50–1

Baptist church, use of Anglican church for burial, 96n; see also nonconformity

770  Population History

local historians, aggregative tabulations, 5–6, 490–2
London, baptism/burial deficits, 166–70; burials, 83; civil burial grounds, 138; dominance of, 472; 1821 census, 106; emigration from, 201n, 223, 226n; exclusion from aggregative tabulations, 6, 38, 581n; immigrants in, 185n; incorporating statistics into national estimates, 77–88; King’s survey of households, 571; life expectancy, 415; marriage, 264n; mortality crises, 683; mortality rates, 336; plague epidemics, 79–80, 81–3, 164n, 340, 341n, 654–5, 663n, 666, 668, 673–4, 679n, 687n; population in 1811, 66; population growth, 467; Rickman’s 1801 survey, 614, 621–2, 626; seasonality of births, 286n, 292; seasonality of burials, 286n, 295; seasonality of deaths, 391; smallpox epidemics, 668; under-registration, 166; wages, 639
parishes: Camberwell, 106; Chelsea, 78; Kensington, 78, 106; Lambeth, 106; Paddington, 78; St Andrew, Holborn, 106; St Ann’s, Limehouse, 78; St Botolph’s, Aldersgate, 78; St Clement Danes, 106; St George, Hanover Square, 106; St George in the East, 106; St Luke’s, 78; St Mary-le-Bone, 78; St Pancras, 78
long-term trends, 157–276, 402–53; economic factors, 402–22; turning points in, 430–5
Loschky, D. J., 443n
Low Countries, seasonality of deaths, 296
Ludlow, Shropshire, 613, 615n, 616–9
Lundström, H., 153n, 201n, 213, 214n, 246
Lutheranism, and seasonality of marriages, 303
Lyndwood, W., 216n, 298n, 565n
Macfarlane, A., 193n
Machin, R., 318n, 439n, 472n
Mackenroth, G., 158n, 268–9
McKeown, T., 228, 248n, 306n, 318n, 415n, 484n, 659n, 668n, 710n
McNeill, W. H., 318n, 386n, 417n
Maidstone, Kent, 411, 638–9
males, age at marriage, 255–6, 422–3, 429, 436; baptism and birth sex ratios, 126–8; burial sex ratios, 128–9; mortality in nineteenth century, 708–11; production levels, 445; proportions never married, 264, 437–8; sex ratios, 591, 594
Manchester, female population, 106, 108; life expectancy, 475
Manley, G., 357
Mark, Somerset, 597n
market towns, baptism/burial deficits, 165–6; distribution in sample parishes, 45, 48, 51; in-migration, 65; and mortality crises, 688–9, 691–2
Marlesford, Suffolk, 598n
marriage, marriage totals (monthly) 519–26, (annual) 496–502, (quinquennial) 495, (decennial) 494; birth/marriage ratios, 189–91, civil registration, 4, 19, 27–8, 264, 436; clandestine, 15, 258, 263–4, 312, 426, 428; comparisons with other series, 170–4; compensating for differences in length of registration, 60–2; conversion from registered to national series, 536, 553–60; demographic representativeness of sample, 34; Fleet marriages, 85; growth rates, 160–2; inflation of sample data to national totals, 66–77; legislation, 29; London incorporated into national totals, 77; missing events, 75; national inflation ratios, 85–8; population size weighting, 62–5; prohibited seasons, 298, 303; Quakers, 93; registration deficiency, 19–30, 190–1, (detection) 19–23, 697–704, (correction) 31–2, 705–7; Rickman’s 1801 survey, 576–8, 597–630; Rickman’s 1841 survey, 572–4, 624–30; seasonality,
marriage (contd)
292, 298–305; weighting factors, 50–1; see also nuptiality; remarriage
Marriage Act (1753), see Hardwicke’s Act
Marriage Duty Act (1695), 24–5, 28–9, 32, 65, 153
‘marriage shops’, 21, 28, 65, 699
Marschalck, P., 646n, 649n
Marshall, J., 79, 81–2, 668n, 676n, 687n
Marshall, J. D., 472n
marshland parishes, baptism/burial deficits, 165–6
Martin, M., 97n
Marx, K., 412
Mary I (reign of), defective registration, 4, 24–7, 31–2, 153
Mathias, P., 475n
Medick, H., 463n
Megan, J. W. D., 663n, 669n
Menard, R., 471n
Mendels, F., 357n, 377, 463n
merchant navy, omission from census, 592–3
Methley, Yorkshire, 248, 424, 448
Methodism, growth of, 95–6; use of Anglican church for baptism and burial, 96
micro-organisms, and mortality crises, 656, 663
Middlesex, 571n; aggregative sample parishes, 41–2, 44, 487; marriage totals, 85; population size weighting, 53–4; ratio of females to families, 124; Rickman’s 1801 survey, 614, 621–2, 626, 628; Rickman’s 1841 survey, 626, 628; unentered burials, 75
migration, age structure, 200–2, 633–5; average annual totals, 528–9; annual rates, 219–28, 531–5; back projection techniques, 195–202, 216, 716–7, 720–1, 724–8; calculation from nineteenth century census totals, 589; effect on population estimates, 159, 584–7; indentured servants, 223, 232–3, 471; and inverse projection, 8, 580; market towns, 48; married people, 258; in nineteenth century, 105, 118–20, 122, 129–30, 596, 631–5; rates of, 174–5, 185–8; relationship to other demographic and economic factors, 464, 469–78; and rise in real wages, 441; sensitivity of back projection estimates, 273, 275–82; sex ratios, 225–6
Milton by Gravesend, Kent, 165
Mirowski, P., 371n
miscarriages, see foetal mortality
Mitchell, B. R., 128n, 174n, 181n, 182n, 223n, 261n, 311n, 356n, 404n, 425n, 438n
models, limitations of, 480–3; pre-industrial populations, 457–80
Moheau, M., 296n
monarchs, influence on adequacy of registration, 24
Monken Hadley, Middlesex, 75n
Monmouth, 10
Montgomery, D. C., 646n, 469n
monthly data, see births; deaths; marriages
Morley wapentake, Yorkshire, 170–1
Morrill, J. S., 681n
Morris, K. J., 659n
772 Population History

mortality (contd)

Mortara, G., 192n
Morton, J., 319n, 391n
Mosley, H. W., 363n
Mueller, E., 445n
muster rolls, 567–9

Napoleonic wars, 89, 220, 222, 234, 440, 475, 592
national inflation ratios, 83–8
natural increase, annual crude rates of, 531–5; nineteenth century, 596
navy, effect of warfare on sex ratio of burials, 128; exclusion from censuses, 199–200, 592–3; loss of life, 220
navy victualling, series of wheat prices, 356

Nef, J. U., 221n
net reproduction rate (NRR), 236–9, 267–8, 527–9; on cohort basis, 530
Netherlands, emigration to England, 469; seasonality of deaths, 297
New Year celebrations, influence on conception rates, 292–3
Newcastle upon Tyne, 628; Rickman’s survey, 71n; 1821 census, 106
Newman Brown, W., 248n
Nicholson, C. D. A., 201n
Nie, N. H., 688n, 691n, 692n
nonconformity, 4; baptisms and burials, 89–92, 94–6; burial grounds, 138; and clandestine marriages, 428; estimating numbers of, 38; proportionate share of births and deaths, 137, 142–3, 561–2; registers, 15; and unrecorded baptisms, 136–7; see also Baptist church; Independent Methodists; Methodism; Puritans; Quakers; Roman Catholic church; Unitarians
Norfolk, 567n; aggregative sample parishes, 41, 43–4, 487; 1811 census, 125; population size weighting, 53–4; Rickman’s 1801 survey, 614, 621–2, 626–7; Rickman’s 1841 survey, 626–7
North America, age structure of migrants, 201; immigration of indentured servants, 223; migration to, 119, 174–5, 223–4, 469; transportation of convicts to, 223
Northampton, 686n
Northamptonshire, 171n; aggregative sample parishes, 39, 41–4, 487; population size weighting, 53–4; Rickman’s 1801 survey, 125, 607, 614, 621–2, 626, 628; Rickman’s 1841 survey, 626, 628
Northumberland, 433n; aggregative sample parishes, 41, 44, 487–8; population size weighting, 53–4; Rickman’s 1801 survey, 70–1n, 614, 621–2, 626, 628; Rickman’s 1841 survey, 626, 628; unentered baptisms, 75
Norway, 181n; back projection, 721, 733
Norwich, 185n; mortality crises, 673; representation in sample parishes, 39; seasonality of burials, 295; St Margaret, 165
Nottingham, 171n; 1821 census, 106
Nottinghamshire, 170n, 171n, 179n, 433n; aggregative sample parishes, 41, 44, 488; population size weighting, 53–4; Rickman’s 1801 survey, 614, 621–2, 626–7; Rickman’s 1841 survey, 626–7
nuptiality, age at marriage, 233–4, 255–6, 261–3, 265, 422–4, 429, 436–7; co-movements with other
nuptiality (contd)
nutrition, influence on fertility rates, 309; variations in, 306

occupations, distribution in sample parishes, 47; population size weighting, 55–6
Ohlin, P. G., 150–2, 228, 248n, 359n, 366n, 461n, 568n, 577–80, 582n, 583–7
Onsett, Essex, 126
Oosterveen, K., 350n
Orrvod, D., 407n
Oswald, N., 335n, 655n, 663n
Outhwaite, R. B., 341n
Over Staley, Westmorland, 125
Oxford, 683
Oxfordshire, aggregative sample parishes, 41–2, 44, 488; population size weighting, 53–4; Rickman’s 1801 survey, 614, 621–2, 626–7; Rickman’s 1841 survey, 626–7; wages, 638
