- abstinence, 64, 107–8  
 abstinence syndrome, opiates for, 93  
 adaptability, loss of, 46–7  
 adaptation, mutual, 139, 140  
 addiction  
   and civil commitment, 49–51, 57, 58, 60, 64–5  
   as crime, 47–8, 57, 58, 59–60  
   and criminal behavior, common roots of, 133  
   and criminal responsibility, 47–8, 57, 58, 59–60, 93  
   disease concept of, 94 (*see also* disease concept)  
   disease-crime model of, 56–65  
   as essentially contested concept, 36  
   and freedom, 35  
   medical, 61–2  
   medicalization of, 36–8, 44  
   and personality, 60, 62  
   and pharmacological tolerance, 37  
   to placebo, 44  
   severe case of, 57–8  
   as status versus act, 48  
   treatment of, 57–8, 63–5, 93, 94, 117 (*see also specific type*)  
   as way of life, 46–7  
   and withdrawal reactions, 37 (*see also* withdrawal reactions)  
 Aesculapian authority, 66, 67, 124  
 age  
   and alcohol use, 144  
   and drug use, 144  
 alarm, general, as harm, 22  
 Alaska, possession of marihuana permitted in, 23, 115, 118  
 alcohol  
   in animal experiments, 40, 42  
   benefits of, 16, 74, 131  
   and cultural categories, 72  
   diseases caused by, 33, 53, 103–4, 107, 108, 131  
   and education, 32, 83, 101, 109  
   for pain, 74  
   pricing of, 102, 104, 108  
   rationing, 104  
   restricting hours of sale of, 103, 108  
   restricting supply of, 102, 103  
   and self-restraint, 32  
   as symbol of adulthood, 44  
   taxes on, 81, 102, 103, 104, 107  
   tolerance to, 37  
   treated differently from other drugs, 32–3  
 alcohol consumption  
   and crime, 132  
   curves, 102–3  
   in United States history, 33, 81, 82, 86, 103, 105, 144  
 alcohol control  
   distribution of consumption model of, 51, 99, 102–8, 142  
   integration model of, 99–102, 103, 104  
   and legal versus informal controls, 99  
 alcohol problems, 79, 131, 132  
   and amount consumed, 102, 103–4, 107  
   as disease, 53, 103–4, 107, 108, 131  
   in France, 100  
   in Italy, 104  
   in preliterate societies, 106

## 166 Index

- alcohol problems (*cont.*)  
 and religion, 101  
 in Scandinavia, 104  
 taxes paying for, 107
- alcohol prohibition  
 and amount consumed, 33, 86, 103, 105  
 harm of, 33  
 history of, 78–88  
 Mill on, 1, 27  
*see also* Prohibition
- alcoholic  
 and loss of control, 39  
 self-identification as, 46, 71
- Alcoholics Anonymous  
 alcohol viewed as external power by, 46, 66  
 emphasis of, on individual susceptibility to alcohol, 54  
 and self-identification as alcoholic, 46, 71  
 and treatment, 66  
 view of alcoholism of, 66
- alcoholism  
 defined, 51–2  
 disease concept of, 51–65, 66, 81, 83, 87, 107, 108  
 individual susceptibility to, 54, 87  
 medical-moral model of, 65–7, 77  
 and morality, 53, 54, 55–6  
 neglect of research on, 130  
 and personality, 60, 62  
 social consequences of, 54, 55  
 as social disorder, 83  
 versus social drinking, 63, 65  
 in Soviet Union, 143  
 as spiritual problem, 66  
 treatment of, 52, 63–4, 66
- alcoholisms, 53
- American Indians  
 fear of effect of alcohol on, 80, 84  
 official policy toward, 122, 124  
*see also* Native American Church
- American Psychiatric Association,  
 diagnostic classification of, 45, 46, 52, 67, 78
- amphetamines  
 in animal experiments, 40  
 for attention deficit disorder, 126  
 and cultural categories, 72  
 cutting supply of, 106  
 lack of penalties for possession of, 96  
 and tolerance, 37
- analogies  
 in analyzing drug regulation, 14–31, 69  
 and epidemics, 139–40  
 not used with alcohol abuse, 32–3
- anarchy, and positive liberty, 12, 142
- animal experiments, and drug dependence, 39, 40, 41–2

- Association Against the Prohibition Amendment (AAPA), 87
- athletics, drug use in, 126–8, 146–8, 149, 151
- attention deficit disorder, amphetamines for, 126
- authority  
 lack of fully accredited source of, 23  
 medical, types of, 66–7  
 and paternalism, 23  
 source of, 29
- barbiturates  
 in animal experiments, 40  
 lack of penalties for possession of, 96
- behaviorism, and model of drug dependence, 39, 40, 41–2
- Bentham, Jeremy, 2, 13, 68, 112
- blacks, protecting, against liquor, 84
- caffeine  
 in animal experiments, 40  
 in Coca-Cola, 73, 76  
 withdrawal reaction, 37
- Canada, prohibition in, 80
- capitalist economy, vested interests of, and drug law enforcement, 113
- categories of drugs, 72–3, 76, 77
- childhood, and paternalism, 5–6, 11
- China  
 opium grown in, 91  
 opium prohibited in, 91–2, 143  
 and opium trade, 89–90, 91
- cirrhosis of liver, 33, 103–4, 131
- civil commitment, involuntary, 49–51,

- 57, 58, 60, 65  
 classification of drugs, by National Commission on Marihuana and Drug Abuse, 137–8  
 Coca-Cola  
   caffeine in, 73, 76  
   cocaine in, 74, 76  
 cocaine  
   in animal experiments, 40  
   in Coca-Cola, 74, 76  
   for pain, 74  
 codeine, in animal experiments, 40  
 coffee, cultural categorization of, 73  
 common law system, in colonies, 80  
 Comprehensive Drug Abuse Prevention and Control Act, 96  
 compulsion, 39, 44  
 compulsive behavior  
   in animal experiments, 41–2  
   as comparable to displacement activity, 41  
 consciousness, altering, 31, 145  
 consumer protection laws  
   and analogy to drug regulation, 17–19, 25, 30, 69  
   medical regulation as, 28  
 controlled substances, inadequate medical control of, 30  
 corruption  
   in drug law enforcement, 112  
   in politics, and liquor industry, 82–3  
 counterattractions, 138  
 craving  
   absence of, in medical addiction, 62  
   defined, 39  
   for opiates, preceding addiction, 39  
   for stimulants, without addiction, 39  
 crime  
   and alcohol consumption, 132  
   and drug use, 132–3  
   organized, 86
