

INDEX

- $\langle a_n \rangle$ 6
 $\langle A_n \rangle$ 10, 24
 adapted automorphism 125
 adapted distribution 125
 adapted lifting theorem 128
 adapted probability space 122
 homogeneous 131
 hyperfinite 123
 universal 131
 Alaoglu's theorem 57
 alphabet 69, 71
 Anderson's Brownian motion
 38ff, 121, 136, 203
 approximation by internal sets 29,
 32
 Ascoli's theorem 57
 atom 109
 atomless space 109-10
 automaton 242
 automorphism (of probability space)
 110
 adapted 125
 axioms for nonstandard analysis
 81ff, 259ff
 extension principle 81
 idealization 260, 267, 275
 saturation 83, 267
 standardization 260, 269
 transfer 82, 260, 266, 275

 Banach space 146, 160, 166ff, 175ff
 classical 175ff
 logic for 175
 stable 174
 Bass formula 240
 bilinear form 190ff
 Boltzmann equation 321ff
 bound variable 73
 bounded internal set theory 263
 bounded nonstandard hull 148, 165
 bounded point 144, 147, 307
 bounded quantifier 259

 bounded sequence in superstructure
 23
 bounded weak-star topology 315
 Brownian bridge 208ff
 Brownian motion 38ff, 121, 136, 203
 local time for 204
 on a fractal 201ff

 c_0 174
 Calkin algebra 162
 Cauchy's principle 279, 285
 chain rule 19
 closed set 52, 53
 collision operator 323
 compact set 52, 53
 relatively 166
 compact-open topology 55
 conditional expectation 122
 internal 123
 conditional expression 125
 connective 69
 consistency (for filters) 86
 constant symbol 69
 continuity 17, 54, 80
 equi- 57, 153
 S- 27, 234, 244
 uniform 18
 *- 27
 convex continuity theorem 314
 counting measure 28, 107, 110
 coupling constant 184, 187, 207

 density condition 150
 differential equation 19, 282ff
 singular perturbation 282
 slow solution 286
 streams of 293
 stochastic 46, 138
 differentiability 19
 diffusion 201ff, 203
 Dirac delta function 185
