## CONTENTS

---

	<i>Preface</i>	xi
<b>1</b>	<b>Wind as a geological process</b>	1
	1.1 Introduction	1
	1.2 Approach to the problem	3
	1.3 Significance of aeolian processes	7
	1.3.1 Relevance to Earth	9
	1.3.2 Relevance to planetary science	11
	1.4 Aeolian features on the planets	16
	1.4.1 Earth	16
	1.4.2 Mars	19
	1.4.3 Venus	28
	1.4.4 Titan	30
<b>2</b>	<b>The aeolian environment</b>	33
	2.1 Introduction	33
	2.2 Properties of atmospheres	33
	2.2.1 Hydrostatic equilibrium	33
	2.2.2 Adiabatic lapse rate	34
	2.3 Comparisons of planets and their atmospheres	35
	2.3.1 Origin of atmospheres	38
	2.4 The atmospheric boundary layer	39
	2.4.1 Turbulence	40
	2.4.2 Turbulent boundary layer	41
	2.4.3 Effect of non-neutral stability	46
	2.4.4 Pressure gradient and Coriolis forces	47
	2.4.5 Friction forces – the Ekman spiral	50
	2.4.6 Diffusion	52
	2.5 Windblown particles	53

Table of Contents

[More information](#)

<i>Contents</i>	<i>viii</i>
2.6 Processes of particle formation	55
2.6.1 Weathering	56
2.6.2 Cataclastic processes	58
2.6.3 Volcanism	59
2.6.4 Precipitation and biological activity	60
2.6.5 Aggregation	60
2.7 Sand and dust sources	61
<b>3 Physics of particle motion</b>	
3.1 Introduction	67
3.2 Classification of motion	68
3.3 Threshold of motion	70
3.3.1 Particle forces	71
3.3.2 Theoretical expressions for threshold	74
3.3.3 Wind tunnel experiments	76
3.3.4 Roughness effects	82
3.3.5 Effects of moisture and other cohesive forces	85
3.3.6 Vortex threshold	85
3.3.7 Threshold predictions for other planets	89
3.4 Particle trajectories	92
3.4.1 Particle forces	93
3.4.2 Saltation trajectories	94
3.4.3 Predictions of saltation trajectories	96
3.5 The saltation layer	98
3.5.1 Particle flux	99
3.5.2 Concentration distribution	101
3.5.3 Mass transport predictions for Mars and Venus	104
3.5.4 Effect of saltation on wind speeds near the surface	104
<b>4 Aeolian abrasion and erosion</b>	
4.1 Introduction	108
4.2 Aeolian abrasion of rocks and minerals	108
4.2.1 Mechanics of abrasion	109
4.2.2 Susceptibility to abrasion	112
4.3 Ventifacts	118
4.3.1 Ventifact morphology	121
4.3.2 Factors involved in ventifact formation	125
4.3.3 Ventifacts on Mars and Venus	129
4.4 Rates of aeolian abrasion: Earth and Mars	131

Table of Contents

[More information](#)

<i>Contents</i>	<i>ix</i>
4.5 Yardangs	133
4.5.1 General characteristics	134
4.5.2 Yardang localities	135
4.5.3 Yardang formation	140
4.5.4 Yardangs on Mars	142
<b>5 Aeolian sand deposits and bedforms</b>	
5.1 Introduction	145
5.1.1 Sand waves	146
5.2 Ripples	149
5.2.1 Ripple morphology	150
5.2.2 Internal structures in ripples	151
5.2.3 Ripple formation	152
5.2.4 'Fluid drag' ripples, 'normal' ripples, and 'mega-ripples'	153
5.2.5 Ripples on other planets	155
5.3 Sand dunes	158
5.3.1 Dune classification and formation	159
5.3.2 Transverse dunes	161
5.3.3 Longitudinal dunes	164
5.3.4 Parabolic dunes	172
5.3.5 Dome dunes	173
5.3.6 Star dunes	174
5.3.7 Other dunes	175
5.3.8 Internal structures in dunes	177
5.3.9 Dune migration and control	182
5.3.10 Clay dunes	187
5.3.11 Dunes on Mars	190
5.4 Sand shadows and drifts	197
5.4.1 'Drifts' on Mars and Venus (?)	197
5.5 Sand sheets and streaks	198
<b>6 Interaction of wind and topography</b>	
6.1 Introduction	199
6.2 Atmospheric motions	199
6.2.1 General circulation and rotational flows	200
6.2.2 The vortex	202
6.3 Topographical effects on surface winds	203
6.3.1 The effects of mountains	203
6.3.2 Separated flows	204

Table of Contents

[More information](#)

<i>Contents</i>	<i>x</i>
6.4 Wind streaks	209
6.4.1 Modes of formation	209
6.4.2 Streaks on Earth	211
6.4.3 Wind tunnel streak simulation	218
6.4.4 Amboy field experiment	224
6.4.5 Wind streaks on Mars	232
6.4.6 Wind streaks on Venus and Titan	248
<b>7 Windblown dust</b>	
7.1 Introduction	250
7.2 Dust storms on Earth	251
7.2.1 Dust storm development and effect on climate	252
7.2.2 Characteristics of aeolian dust	253
7.2.3 Erosion of agricultural land	254
7.2.4 Dust devils	257
7.2.5 Fugitive dust	262
7.3 Dust storms on Mars	263
7.3.1 Martian great dust storms	267
7.3.2 Martian great dust storms clearing	273
7.3.3 Local dust storms	275
7.4 Dust deposits	276
7.4.1 Loess on Earth	277
7.4.2 Dust deposits on Mars	278
Appendix A: Nomenclature and symbols	282
Appendix B: Small-scale modeling of aeolian phenomena in the wind tunnel	286
<i>Glossary</i>	292
<i>References</i>	303
<i>Index</i>	322
