<i>Preface</i>	<i>page</i> xi
1 Anti-neoclassical or non-Walrasian economic theories	1
<i>Revolutions in the history of science</i>	2
<i>Paradigms and research programs</i>	4
<i>Organization of the book</i>	6
 Part I Increasing returns and diminishing cost	
2 Adam Smith and increasing returns in a competitive situation	11
<i>Competition and natural price</i>	12
<i>Division of labor limited by the market</i>	15
<i>Demand deficiency and increasing returns</i>	18
3 A reconstruction of Smith’s doctrine on the natural order of investment	23
<i>Smith on the different employment of capital</i>	24
<i>Division of labor and capital accumulation</i>	27
<i>Natural order of investment reconsidered</i>	30
4 The possibility of a falling rate of profit under diminishing cost	35
<i>Marx on competition and diminishing cost</i>	36
<i>Relative price and the rate of profit</i>	38
<i>Dynamics of the rate of profit</i>	40
<i>The case of multiple goods</i>	43
5 Rehabilitation of Marshall’s life-cycle theory to explain diminishing cost	45
<i>Stationary state and balanced growth</i>	47
<i>Internal economy due to technical progress</i>	50
<i>Further considerations</i>	54
 Part II Wages and profit	
6 Conditions for the wages fund doctrine and Mill’s recantation of it	59
vii	

viii	Contents	
	<i>Annual harvest assumption and wage good assumption</i>	60
	<i>Unitary elasticity of demand for labor</i>	63
	<i>Zero elasticity of demand for labor</i>	67
7	Marx and exploitations in production and in circulation	72
	<i>Period of production and exploitation</i>	73
	<i>Böhm-Bawerk and Hilferding</i>	76
	<i>Different views on discount and exploitation</i>	79
	<i>Period of reproduction of labor power</i>	83
	<i>An industrial reserve army and exploitation</i>	85
8	Marx's dichotomy between exploitation and redistribution of surplus products	89
	<i>Value and price of production</i>	90
	<i>Value and absolute rent</i>	94
	<i>Value and differential rent</i>	98
9	Böhm-Bawerk and the positive rate of interest in a stationary state	101
	<i>Wicksell's missing equation</i>	103
	<i>Böhm-Bawerk's three causes of interest</i>	105
	<i>The life cycle and the first cause</i>	108
	<i>Inheritance and the second cause</i>	112
	Part III International trade and investment	
10	The role of exporters and importers in classical and Keynesian theories	117
	<i>Classical price-specie-flow mechanism</i>	119
	<i>Ricardo's theory of terms of trade</i>	123
	<i>Foreign exchange gains in a Keynesian situation</i>	126
11	Ricardo, the natural wage, and international unequal exchange	132
	<i>Ricardo's theory of comparative costs</i>	134
	<i>Emmanuel's theory of unequal exchange</i>	137
	<i>Saigal's refutation of gains from trade</i>	139
	Part IV Markets and money	
12	Jevons, Edgeworth, and the competitive equilibrium of exchange	147
	<i>Jevons's theory of exchange</i>	148
	<i>Edgeworth's limit theorem</i>	150

Contents	ix
<i>Divisible trade and the law of indifference</i>	153
<i>Cournot–Walras arbitrage</i>	156
13 Menger’s <i>Absatzfähigkeit</i> , a non-Walrasian theory of markets and money	158
<i>Menger’s theory of market</i>	159
<i>Absatzfähigkeit and the short-side principle</i>	161
<i>A theory of money</i>	165
14 The Marshallian foundation of macroeconomic theories	169
<i>The classical dichotomy and the neutrality of money</i>	170
<i>Marshall’s monetary theory of trade cycle</i>	174
<i>Marshall’s non-tâtonnement theory of market</i>	177
<i>Notes</i>	182
<i>References</i>	192
<i>Author index</i>	201
<i>Subject index</i>	204
