

## Index

---

- A-Morphous Morphology,  
 characterized, 1, 72, 260–261,  
 262–263, 266
- Abkhaz, 97, 114
- Ablaut, 50, 61, 265, 338, 390
- absolute class, 97–98, 351
- accent variations in, 326, 327
- accusative languages, 351, 354
- acquisition  
 and morphologization of  
 phonological rules, 344  
 and relative ordering of inflection  
 and derivation, 126n.
- Adjacency Condition, 279, 345
- Adjectives  
 elative of, 387–388; with irregular  
 comparatives, 196–197  
 postposed as appositive structures,  
 141
- ‘Affix Hopping,’ 16
- Affix Ordering Generalization, 227,  
 241–244, 245, 253, 255, 258–259
- affix placement rules, 304–305
- Affixation, 326–327  
 at word level, 200, 216  
 parallels with cliticization, 205–223
- affixed words, compared with  
 compounds, 310–318
- affixes  
 borrowing of derivational, 222  
 distinguished from clitics, 222–223  
 inflectional, 219  
 the nature of, 205–210  
*see also* phrasal affixes
- ‘agglutinating’ languages, 51, 321,  
 322, 328–329, 382
- agreement, 103–118  
 characteristics of rules of, 105–106  
 co-indexation of 112–118, 147, 150,  
 351–352  
 cyclicity of sequence of rules 96,  
 217  
 Modifier–Head 106–111  
 predicate–argument 111–118  
 referential nature of 113–118
- Akmajian, A., 186
- Alabama, 66, 303
- Aleut languages, 308
- Algonquian languages, 3, 93, 95, 99,  
 130, 136, 156, 158, 163, 361–362  
 inverse forms in, 170–176
- Allen, M.R., 286
- allomorphs, 12, 50
- allomorphy, 2, 8, 13–15, 51, 337  
 compared with phonology, 42–47  
 and lexical suppletion, 188–189
- allophones, 12, 14–15, 228–231
- Alternation Condition, 246–248, 290
- American Indian languages, 361–362
- analogy  
 or changes in morphological rules,  
 365–372  
 classical, 365–367  
 in compound formation, 297–299,  
 318  
 model of proportional, 366–369  
 proposed laws of (Kuryłowicz),  
 370–371  
 structural interpretations of,  
 367–372

418 *Index*

- anaphoric elements, parallels with agreement morphology, 113–118
- anaphors, binding relations, 113–114, 115, 118, 273–274, 275–279
- Andrews, A., 117
- ‘anthropophonic’ variations, 340
- ‘anti-iconic’ languages, 322, 327
- aphasia, and loss of control of inflectional morphology, 77
- apophony, 61–62, 64, 67, 68, 85, 86  
 use of term 61n.
- Arabic, Classical, multiplanar analysis of verbal form, 57–58 (fig. 3.1), 61
- Archangeli, D., 58
- argument, ‘external,’ 276
- argument positions, structural relations to Verbs, 95–96 (fig. 4.1)
- Armenian, Classical, 357
- Arnott, D.W., 80
- Aronoff, M., xiii, 5, 55, 69, 75, 78, 125, 132n., 180–181, 183, 186, 187–188, 191–192, 193–194, 197, 227n. 231, 232, 242n., 253, 280, 310
- Aronson, H.I., 137n.
- artificial systems, 63–64
- Atayal, 207n.
- ‘atomicity’ of words thesis, 267
- Australian languages, 351, 385
- Austroasiatic languages, 60, 207
- ‘Autolexical Syntax,’ 23–24
- autonomous phonology, 47n.
- Autosegmental Morphology, 56–59, 68, 285
- Autosegmental Phonology, 44, 56–57, 213
- Avar, 351–352
- Babby, L.H., 111
- back formation, 190–191
- Badecker, W., 77
- Bagemihl, B., 63n., 338n.
- ‘bahuvrihi’ compounds, 295, 316
- Baker, M., 24, 29, 34, 127, 267, 268, 270, 271, 279, 313
- Bambara, 389
- Bantu languages, 209  
 Southern, 45–46, 344  
 word order, 348
- Barlow, M., 103, 104
- Barton Jr., G.E., 385, 393n., 395–396
- Basbøl, H., 251
- base structures, theory of, *see*  $\bar{X}$ -theory
- Basque, verbal agreement, 78
- Bat-El, O., 76, 77n., 288–289
- Baudouin de Courtenay, J., 11, 339, 340, 360
- Bauer, L., 70, 311n.
- Bayer, J., 111
- Beard, R., 5
- Běijīng dialect, 79, 297
- Benjamin, G., 60
- Bennis, H., 111
- Benveniste, E., 7, 357
- Berwick, R., 385, 393n., 395–396
- Besten, H. den, 91n.
- binary branching, in composite structure, 302n.
- binding relations, anaphoric, 113–118, 273–274, 275–279
- Binding theory, 135  
 conditions on 275n., 276, 278  
*see also* Government and Binding theory
- “binyan,” 57
- Bloch, J., 62, 355
- blocks, of rules of inflection, 129, 134
- Bloomfield, L., 48–50, 64, 180–181, 227n., 228–229, 230, 367
- Boas, F., 25n., 36, 325
- Borer, H., 80
- borrowing, 222, 336, 365
- bound morphs, 49, 297, 310
- boundaries  
 relationships to stress cycle, 234–236  
 role in conditioning distribution of

- allophonic variants, 228–231
- boundary elements, 192n., 285, 289;  
*see also* juncture
- 'edge effects,' 239–240, 245, 249
  - elimination of word-internal, 2, 56,  
 244–249, 255, 289–291
  - in phonological theory, 4, 227–249
  - quasi-phonological, 225, 255, 257
  - and types of rules, 238–244
- boundary theory, 235–244
  - alternatives to, 244–249
- Bounding theory, 120, 135
- Bowen, J.D., 227n., 231
- bracket erasure, 264, 266, 285–288
- bracketing paradoxes, 72n., 193, 254,  
 262–264
- Brazilian Portuguese, 390–391
- Breton, 54, 115, 357
- Broadwell, G.A., 65
- Bromberger, S., 67n., 282
- Browne, W., 43, 68, 203
- Buryat Mongolian, 349
- Burzio, L., 35n.
- Bybee, J.L., 5, 363
  
- C-Command, analogies with  
 morphology, 262
- Caramazza, A., 77
- Carden, G., 42n.
- Carrier-Duncan, J., 64
- Carstairs, A., 79, 94n., 123n.
- case, 'lexical' and 'structural,' 121
- case assignment, 118–122
  - in Georgian, 150, 152–153
- Case attraction, rule of, 117
- case marking, correlation with aspect,  
 354–360
- categorically inappropriate bases,  
 191–192
- Caucasian language family
  - Northeast, 88, 97n.
  - Northwest, 97
- 'chain-shifting' process, 68, 68n., 215
- 'chains' of elements, 115–116
- "chameleon morphs" 59–61
  
- Chamorro, 114
  - agreement rule, 127–128
  - infixes, 207–208
- change
  - linguistic, 5, 69, 321–322
  - morphological, 336–372
- Chao, Y.R., 79
- Chengzhou dialects, 79
- Chickasaw, 392
- ChiMwi:ni, 270, 271, 272, 273
- Chinese, 78–79, 114, 316; *see also*  
 Mandarin
- Chinook, 353
- Chiu, B.H.-C., 303
- Choctaw, 66, 88
  - negation in verbs, 56, 70
- Chomsky, N., 3, 8, 37, 41, 42, 43, 83,  
 91, 91n., 92, 101, 108, 109, 119n.,  
 183, 225, 226, 227n., 233,  
 234–235, 236n., 240, 241, 242n.,  
 249, 258

- Chung, S.L., 114, 208n., 350, 353–4
- Churchward, C.M., 212–213
- Churchward, S., 209
- circumfixes, 59, 327, 389
  - and the problem with classical  
 morphemes 52, 53, 56
- Clallam, 66–67
- Clark, R., 212
- classical generative phonology,  
 227–228
- clitic placement rules, 198, 202–203,  
 204
  - cyclicity of, 219–221
  - formal expression of, 216–221
- cliticization
  - at phrase level 139, 198, 200,  
 210–216
  - parallels with affixation 205–223
- clitics 3–4, 9, 18–21, 198–223, 377n.
  - borrowing of 222
  - compared with particles, 204
  - distinguished from affixes, 222–223
  - and morphologization, 363–365

420 *Index*

- clitics (*cont.*)  
 the nature of, 199–205  
 non-affixa, 215  
 as phrasal affixes, 198–223  
 problem of lexical category status, 125n., 200–205  
 prosodic character, 198, 201, 203–204, 205  
 second-position, *see* special clitics
