

INDEX

Alexander's theorem on closed braids	57	canonical n -fold polynomial covering map	87
Alexander trick	36	carrier space	134
ambient isotopy	3, 52	characteristic algebra	133
applicable elementary deformation	51	characteristic homomorphism	103
Artin braid group	6, 16	closed braid	50, 57
Artin's presentation of the braid group	8, 18	coefficient map	91
Artin's representation theorem	25	coloured braid	15, 16
associated Σ_n -bundle	89	combing the braid	21
axis for a link	55	combinatorial equivalence of links	52
Borromean rings	77	complete solvability	123
Borsuk – Ulam theorem for orientable surfaces	96	completely regular space	130
braid	2, 15, 40	component of link	51
braids as automorphisms of free groups	25	configuration space	9, 14
braid group	6, 15	crossed homomorphism	111
braid group sequence	17	deformation of type \mathcal{A}	59
braid index	62	deformation of type \mathcal{W}	60
braid on n strings	2, 15	Dirac braid	42
braid representation of link	73	Dirac string problem	39
braid representative of link	61	discriminant	86
canonical homeomorphism	89, 97	discriminant function	140
		discriminant polynomial	86
		discriminant radical	145
		discriminant set	86
		edge of link	51

190		Index	
Eilenberg – MacLane space	17	inverse braid	5
elementary braid	4	irreducible Weierstrass polynomial	141
elementary deformation	51	Jacobson radical	139
embedding of covering	93, 114	knot	51
embedding criterion	93	left handed trefoil knot	74
equivalence of braids	3	link	51
equivalence of covering maps	85	link group	66
extension of algebraic type	138	mapping class group	38
fibration of configuration spaces	10	Markov's theorem	54, 61
fixed ideal	134	Markov move	62
Fox braid	15, 41	n-braid	2
Fox braid group	15	negative edge of link	55
free homotopy of loops	65	open braid	57
Gelfand – Kolmogoroff theorem	134	orientation of link	55
Gelfand topology	133	oriented link	55
geometric braid	2	permutation homomorphism	17
general position of link	55	permutation of braid	2
granny knot	75	plane projection of braid	3, 4
group of braids on n strings	15	plane projection of link	73
group of link	66	polynomial covering map	83
height of link	56	polynomial covering space	83
homotopy of braids	3	positive edge of link	55
Hopfian property of group	24	presentation of group	71
idempotent	141	primitive for extension	130

Index			191
principal Σ_n -bundle	14, 89	symmetric polynomial	86
product of braids	5	torus knot	79
projective module	139	trefoil knot	74
pull-back criterion	92	trivial braid	5
pure braid	15, 16	trivial covering map	84, 85
q -connected space	114	trivial knot	78
realcompact space	133	trivial link	79
reducible Weierstrass polynomial	141	unknot	78
Reidemeister – Schreier rewriting process	20, 153	van Kampen theorem	70
right handed trefoil knot	74	vertex of link	51
root map	98	Weierstrass polynomial	82
sawtooth	58	word problem in $B(n)$	33
Schreier transversal	154	Zariski topology	133
separable algebra	139	zero set	83
simple (separable) Weier- strass polynomial	82		
P.A. Smith's theorem	17		
Solomon's knot	80		
spectrum	134		
square knot	75		
Stone topology	133		
string of braid	2		
string index	61		
structure theorem for link groups	67		
symmetric group	14
