## INDEX

Numbers in italic type refer to the maps, with *FEP* and *BEP* standing for *Front* and *Back endpaper* respectively. Numbers in bold type are those of the coin illustrations and serve as an index to names occurring in the captions on pp. 243–66. Since the book is not a coin catalogue, types and legends are indexed only where they are unusual or are specifically discussed in the text or notes. The indexing of the list of rulers and the glossary is likewise selective.
