

Index

- abortifacients, 21–2, 56
 Ackerknecht, Erwin H., 9, 95n10
 Ackworth Foundling Hospital, 52–3
 acute care: emphasis on, 338; in almshouses, 186; in hospitals, 323, 340
 acute disease/illness, 14–15n5, 51, 183, 314–15; body–mind relationship in, 79–80; in Gunn, 67–8; decline in, 272, 274, 280, 322–3
 Adams, John G., 130
 admission(s): to almshouses, 182, 183, 186, 187; to Blockley, 199, 201; to hospitals, 183, 327, 335
Advice to the People (Tissot), 36, 51
 age, 136, 214; problems of, 252, 322–3; *see also* elderly (the)
 Agnew, C. R., 129–30
 AIDS, 6, 89, 258, 259, 260, 265, 293, 307n4, 317; in historical perspective, 278–92; laboratory response to, 273; meaning of, 275; microhistory of, 302–4; as modern epidemic, 289–92; as postmodern epidemic, 291–2; predisposition in, 275–6, 302, 304; social construction of, 274–7, 292
 Albertus Magnus, 56
 alcohol, 53, 61, 134–5, 145
 alcoholism/alcoholics, 62n6, 74, 166, 169, 182, 187, 189, 209, 258, 269, 274, 283–4, 306, 309, 312, 326n10
 Almshouse (New York City), 141, 142
 almshouses, 166, 178, 179–80, 209–14, 326–7, 329, 330; and chronic disease, 194–5; discipline in, 211–12; as dumping ground, 191; heritage of, 184–5; hospital separated from (Philadelphia), 200, 201–7; in Philadelphia, 180–91
 American Medical Association, Committee on Medical Ethics, 149
American Medical Recorder, 59
 American Psychiatric Association, 246–7
 anorexia, 89
 antibiotics, 254, 263, 274
 anticontagionism, 95n10, 104, 298
 antimony, 16, 17, 66, 68
 antipositivism, 260
 antirationalism, 249n1, 256
 antisepsis, 167
 anxiety, 80, 88, 246, 249, 254, 252, 269, 313
 apothecaries, 139, 140, 144, 147–8, 156–7
Aristotle's Masterpieces, 56
 Armstrong, John, 51
 Army Medical Museum, 217
 Arnold, Richard, 148n53
 arsenic, 16, 66, 68
 arthritis, 40
 asbestosis, 315
 Association for Improving the Condition of the Poor (New York City), 160
 Association of American Physicians, 235
 Association of Superintendents of American Institutions for the Insane, 246–7
 asthma, 86–7
 asylum(s), 246–7; as metaphor, 97n13
 atmosphere, 46, 64, 92; contaminated, 94, 98, 101, 104; hospital, 94, 55–6; as primary role in disease causation, 99–100, 101, 105
 attending physicians: Blockley, 198, 206; in dispensaries, 157, 163, 164, 167; hospital, 325
 attitudes, 110; and medical care, 178, 332; in response to AIDS, 278; in response to cholera epidemic, 116, 117; in social response to disease, 305; *see also* social attitudes
 auscultation, 143–4
 autopsy(ies), 139, 203
 bacteria, 287, 294
 bacterial etiology, 299–300
 bacteriology, 227
 Baker, S. Josephine, 227

- balance, 46, 48, 68, 92, 311; concept of, 64; emotions and, 77
- Baltimore: dispensaries in, 156; municipal hospital of, 180
- Bard, John, 165n23
- Barker, Fordyce, 153n67
- Barnes Hospital (St. Louis), 337
- Barton, Benjamin Smith, 59, 67n14
- Beach, Wooster, 58n2
- Beard, George, 85
- bedside teaching/training, 206–7, 325
- behavior, 269; in AIDS patients, 276; biological factors in, 260; and disease/illness, 62n6, 274, 276, 283–4, 288, 302, 306, 310n10, 312–13; and environment in health, 100, 104
- behavioral change, 315; in prevention of AIDS, 288–9
- behavioral sanction, disease as, 268–70
- behavioral therapy, 256–7
- Behring, Emil von, 230
- Bellevue Hospital (New York City), 27, 140, 141, 144, 145n45, 179, 220, 327; Carnegie Laboratory, 233–4; Medical College, 151n60; nurse training school, 208; physician income, 131; Society of Alumni, 125
- Bigelow, Henry J., 164n20, 168
- Bigelow, Jacob, 145, 164n20
- Biggs, Hermann A., 227, 228, 234, 239
- bilharziasis, 112
- Billings, John Sedgwick, 216–42
- Billings, John Shaw, 216, 219–20, 223, 232, 237n77, 239, 241, 242
- Billings, Katherine Hammond, 218, 220, 222, 223–4, 225, 226–7, 231, 233, 234–5, 236, 242
- biography, and social/cultural history, 215, 239
- biological mechanisms, 260, 269, 271, 275, 276; invested with moral meaning, 288
- biological relationships, man in, 280, 281n4, 287
- blacks, 187, 188–9, 193, 209, 248
- Blakeman, W. M., 130
- blaming, 74, 81; in epidemics, 284; *see also* victim blaming
- bleeding, 9, 11, 15, 19, 26, 65, 68n16, 146, 165, 311; alterative effect of, 16n11; criticism of, 23, 145; decline in use of, 27, 146; faith in, 22; in Gunn, 66, 67–8; by laypeople, 38, 40, 41, 63, 69; in thoughts of Nightingale, 103–4; in treatment of mental disorders, 78n10; when appropriate, 48
- Bliss, A. A., 197–8, 204
- blisters, 15, 27, 146
- Blockley (almshouse, Philadelphia), 185–97, 198–214; administration, 207, 208–9; disciplinary problems, 211–12; medicalization of, 198–207; nurse training school, 207–8
- blood: nutritive function of, 77; plethora of, 21n20, 26
- blood analysis, 144
- Blue Cross/Blue Shield, 329
- Board of Guardians for the Poor (Philadelphia), 160, 183, 185, 188–9, 195, 196, 197, 198–9, 200, 207, 208; Hospital Committee, 183, 186, 189, 190, 202; name changes, 211
- body, 1, 4, 5, 9, 102; developmental pattern in, 49; functioning of, 43; healing power of, 16, 23n25, 45, 46–7, 66n12, 94, 103; internal balance in, 13, 15, 20; shared assumptions about, 17, 18, 31, 32, 43, 45, 64, 92–3; traditional view of, 23, 26, 46; views of, 12–13, 31; *see also* environment–body interaction
- body metaphor, 12, 14, 23, 31, 92–3; in Nightingale, 96–7
- body–mind relationship, 46–7, 64–5, 264; in 19th-century medicine, 74–89
- Boston: almshouse, 180; diet kitchen associations, 160; dispensaries, 156, 168
- Boston City Hospital, 194–5, 327n12
- Boston Dispensary, 157, 159n10, 161, 164n20, 166, 169, 173n34
- Boston Instructive Visiting Nurse Service, 160
- Boston Medical and Surgical Journal*, 28, 164
- botanic medicine, 22–3, 56, 66–7, 255n6
- boundaries, 264, 268–9, 314, 340–1
- breast cancer, 248
- brown lung, 315
- bubonic plague, *see* plague
- Buchan, William, 57, 58, 62, 65, 68, 70; explanation of *Domestic Medicine*, 32–56
- Buck, Gurdon, 129, 130n11
- Burke, John, 137–8

- Cabot, Richard, 29, 172
- Cadogan, William, 79
- calomel, 146, 147
- Camus, Albert, 280–1, 282n14, 292
- cancer, 14n5, 19, 74, 78–9, 141, 313; meaning of, 273–4
- cancer specialists, 129, 149
- cardiologists, 324

- Carlisle, Robert R., 220, 221, 223, 236
 Carnochan, J. W., 153–4n68
 cartography and epidemiology, 119
 cathartics, 9, 14, 15, 19–20, 21, 24, 27, 42, 145, 147; decrease in use of, 146; faith in, 22, 25; seasonal administration of, 13
 catheter(s)/catheterization, 40, 59, 69
 Cathrall, Isaac, 55n61
 cerebral hyperemia, 85–6
 cerebrospinal meningitis, 228
 Chapman, Nathaniel, 59
 Charity Hospital (New York City), 131, 140, 141
 charity medicine, 323, 328; through dispensaries, 173–4, 175–6; in New York City (1966), 131, 138–40; stigma of, 195
 charity organization movement, 175
 Charleston, S. C., 180
 chemistry, 115–16, 118
 Chevalier, Louis, 113n7
 Cheyne, George, 34, 35, 51, 54
 Chicago municipal hospitals, 180
 chicken pox, 314
 child rearing, 43, 61
 childbed fever, 47n58, 76n4
 childbirth, 39, 40, 43, 49n45, 69, 70, 72, 308
 children, 39, 43–4, 51, 52, 230, 273, 274; in almshouses, 183, 186, 187; hare-lip, 68–9
 chlorosis, 307
 cholera, 25, 28, 110, 111, 203, 275, 276, 279, 284, 307, 313, 314, 315, 322; cause of, 268; contagion, 297; etiology of, 264–6, 300; explanation of, 117–20; in New York City, 219, 227; in 19th-century Europe, 112–21; as sampling tool, 109; transmission of, 98; in U.S., 121; as water-borne disease, 107
 cholera epidemics, 79, 135, 274, 283, 286, 297; in New York City, 241; in U.S., 282
 cholera vibrio, discovery of, 120
 Christian Science, 87
 chronic care, 201, 212, 214, 273, 323, 324; AIDS and, 291
 chronic disease/illness, 51, 158, 159, 178, 214, 271–2, 314, 322; and almshouses, 183, 194–5, 327; causes of, 79; lay practice in, 41–2; lifestyle in, 74; risk factors in, 89; social role of, 313; treatment of, 67
 chronic fatigue syndrome, 306
 civil rights, AIDS and, 276
 Civil War, 159
 Clark, Alonzo, 130
 class, *see* social class
 cleanliness, 46n36, 52, 53, 94, 139, 324
 climate, 13, 46, 135, 136, 294, 295
 clinical medicine, 3, 11, 41, 152, 247, 267, 268; body–mind relationship in, 75–6; in mental illness, 245, 249; at Philadelphia General, 213; technology in, 247
 clinical pathology, 204, 217, 234, 324
 clinical psychologists, 246
 clinical training, 151–2, 192, 240; at Blockley, 202, 203, 206–7; in dispensaries, 163–4, 167, 174; in municipal hospitals, 200; for psychiatrists, 250
 clinical trials, 11, 24
 codes of ethics, 133
