## INDEX

- adaptation
  - aggressive behavior, when adaptive 14–15, 239–44, 248
  - animal 239–40
  - basic human organizational 37
  - chimpanzee 241
  - for reproductive success 95
- adolescence, period of
  - culturally defined 203
  - defined 117
  - experience of provisioned chimpanzees 105–22, 205, 209, 219–20
  - missing, foraging society 117
  - missing, wild chimpanzee groups 117
  - psychobiology of adolescent anger 119
  - see also* youth, period of
- adult rank, achievement of
  - by foragers 75–6, 103, 117–22 *passim*, 203–5
  - in provisioned groups 75–6, 103, 117–22
  - social and maturational factors in 122, 203–5
  - sole rank, immediate-return society 41, 46
  - by wild chimpanzees 203–24
- aggression
  - when adaptive 14–15, 239–44, 248
  - direct competition and 143, 144
  - factors affecting arousal 75, 93, 137–9
  - ideal learning situation 93
  - maladaptive 140–2
  - physiological expression of 69
  - psychological basis for 31
  - response to frustration 136–42
- aggressive behavior
  - current understandings based on 2, 3, 73, 88, 102–3, 112, 144–5, 147, 198, 206, 257
  - disturbed foragers 14–15
  - lack of, foraging societies 18–19, 47–8, 49
  - lack of, wild chimpanzees 22–3, 25, 59, 66, 74, 118, 145, 159–61, 226, 260, 263
  - genetic potential for 149, 239
  - see also* behavior, social *and* frustration
- alliances, chimpanzees 122–3
- alloparenting, *see* aunting
- Amber, female chimpanzee, Arnhem zoo 198–9, 215
- anger
  - frustration-induced 140
  - the psychobiology of 119
- animal conflict, nature of 71
- apprenticeship
  - of chimpanzees 117–19, 120, 122, 205–9
  - defined 117
  - of youthful foragers 117, 203–5, 259
  - see also* adult rank
- Arnhem zoo colony
  - conditions 13, 255
  - inability to utilize fission–fusion pattern 198, 199, 255
  - unnatural stress of 13
  - value of study 13, 197
- artificial feeding, *see* provisioning
- assertive behavior, 76, 139–40, 246
- attachment to group
  - necessity of, fission–fusion societies 217–43
  - positive social contacts strengthen 187, 188
