- chequerboard, 95, 109ff
- Clark–Evans' statistic, 24
- classification errors, 78
- 'closing', 127
- cluster expansion, 59, 66
- cluster process, 5
- concavity, 13
- conditional intensity, 50
- conditioning, 46
- confidence intervals, 46
- contouring, 3
- contraction mapping, 84
- convex body, 29
- convolution, 76, 82
- correlogram, empirical, 15, 20
- covariance function, 9, 15, 21
  - uncentred, 124f
- cross-validation, 78
- deconvolution, 82ff
- differencing, spatial, 6, 90
- 'dilatation', 127
- discretization, 7
- distances
  - interpoint, 23, 28ff; limit theorems, 44ff
  - nearest neighbour, 23ff
- edge effect, 2, 51, 57, 65ff, 128
- edge effect correction, 23ff, 52, 68, 124
  - border, 25, 32, 40ff, 124
  - isotropic, 32, 39f, 67f
  - rigid motion, 33f, 37ff
  - toroidal, 31f
  - translation, 34, 43, 124
- edge process, 81
- electron microscopy, 74, 121
- empty-space statistics, 23
- energy, 49, 76
- entropy, 94f
- 'erosion', 127
- exploratory data analysis, 137
- exponential family, 65
- Fisher scoring, 19, 65
- forestry, 113
- Fourier transform, 89, 92
- frequency domain, 89
- gain function, 89
- geostatistiques, 9f

- Gibbs model, 76  
*see also* Markov random field; point process, Gibbsian
- Gibbs sampler, 96, 114
- glass fibre reinforced polyester (GFRP), 123, 131ff
- hard-core process, 51, 56, 61
- homogeneity, 7
- ICM (iterated conditional modes), 97, 99
- image  
 analyser, 121, 135  
 digital, 1, 74  
 enhancement, 75  
 greylevel, 135ff  
 restoration, 75f, 82ff  
 segmentation, 76, 95ff, 113ff
- importance sampling, 63
- increment, generalized, 7
- infidelity, 77f, 94, 96
- information  
 Fisher, 73  
 observed, 57
- inspection problems, 136
- intensity, 22  
 conditional, 50
- interpoint distances, *see* distances, interpoint
- interpolation, 3, 9
- intrinsic hypothesis, 7
- Ising model, 80, 98
- isotropy, 7, 22
- kriging, universal, 10, 15
- LANDSAT satellite images, 74, 120
- land use, 76f
- lattice process, 4
- likelihood  
 geometry of, 4  
 maximum, 10, 50, 55, 57, 62ff, 65, 73, 88  
 methods, 5  
 penalized, 78  
 profile, 15ff
- linear equations, 83
- ling, 122, 128, 131
- local conditioning, 52ff, 67
- long-range dependence, 3, 7
- Mahalanobis distance, 77
- MAP (maximum a posteriori), 77
- Markov mesh random field (MMRF), 117f
- Markov point process, 52
- Markov random field (MRF), 79ff  
 Picard, 117  
 Strauss, 79
- maximum entropy, 78, 94f
- maximum likelihood, *see* likelihood, maximum
- Metropolis' algorithm, 65, 96
- MMRF, 117f
- moment measure  
 factorial, 30  
 second, 22
- moments, convergence of, 44f
- Monte-Carlo, 27, 62ff, 73  
*see also* simulation
- morphological transformations, 127, 135f
- moving average, 3
- MPM (marginal posterior mode), 114
- MRF, *see* Markov random field
- multiscale process, 51, 55, 65, 73
- nearest neighbour distances, *see* distance, nearest neighbour
- neighbour, 2, 79, 81, 84, 106
- neighbourhood, 82, 114, 116, 120
- 'opening', 127
- optimization, 14, 82  
 combinatorial, 95f, 100  
 Fisher scoring, 19, 65  
 heuristics in, 100  
 network flow, 99  
 Newton/Newton-Raphson, 13, 65
- ordering, 1
- pairwise interaction process, 50, 55, 58
- Palm
