Preface	ix
1 Manifolds with singularities	1
1.1 Bordism theories with singularities	2
1.2 Generalized Bockstein-Sullivan triangle	6
1.3 Some complexes of cobordism theories	13
1.4 The bordism theories $MG_{\star}^{\Sigma\Gamma(k)}(\cdot)$	16
1.5 Proof of Theorem 1.4.2	22
1.6 Σ -singularities spectral sequence	32
2 Product structures	39
2.1 Multiplication structures	40
2.2 Existence of product structure	45
2.3 Commutativity for the case of one singularity	53
2.4 Associativity for the case of one singularity	56
2.5 General case	66
2.6 Product structure in the Σ -SSS	70
3 The Adams-Novikov spectral sequence	81
3.1 Basic definitions	82

3.2	The modified algebraic spectral sequence	89
3.3	Symplectic cobordism with singularities	96
3.4	The Σ -SSS for MSp	104
3.5	Splitting of the spectrum $MSp_{(2)}^\Sigma$	114
4	First differential of ANSS	123
4.1	Characterization of the Ray elements	124
4.2	Product structure in $MSp_*^\Sigma(\cdot)$	128
4.3	Some relations in the ring MSp_*	136
4.4	Localization of bordism theories	141
4.5	The generators of the ring MSp_*^Σ	152
4.6	Some notes	166
	Bibliography	171
