Every effort has been made in preparing this book to provide accurate and
up-to-date information which is in accord with accepted standards and
practice at the time of publication. Nevertheless, the authors, editors and
publishers can make no warranties that the information contained herein
is totally free from error, not least because clinical standards are constantly
changing through research and regulation. The authors, editors and
publishers therefore disclaim all liability for direct or consequential damages
resulting from the use of material contained in this book. Readers are
strongly advised to pay careful attention to information provided by the
manufacturer of any drugs or equipment that they plan to use.
