

CONTENTS

- List of figures* page xi
List of tables xvii
Acknowledgements xviii
Preface xxi
- 1 Introduction 1**
Conceptual approach of the book 2
An ecological approach to ceramic production 4
The unit of analysis 9
The plan of the book 12
Quinoa and Andean pottery making 14
- 2 The community: its physical environment and adaptation 16**
Environment 16
The spatial organization of the community 26
- 3 The environment and culture history 34**
The Middle Horizon 34
The Chancas 40
The Inca Conquest 41
The Spanish Conquest 45
The Battle of Ayacucho 46
Conclusion 46
- 4 Ecological interrelationships of the community of potters 48**
The community of potters in Quinoa 48
Relationships of the population to the environment 51
The ecological niche of Quinoa potters 69
Conclusion 70
- 5 Ceramic production in Quinoa 72**
Selecting raw materials 73
Fabricating pottery 80
Decorating 95
Firing 100

Contents

x

Making pottery at the artisan center	108
Implications for archaeology	112
Conclusion	115
6 Ceramic products and society	116
Channels of matter, energy and information flow	116
Distributing Quinoa pottery	130
Conclusion	138
7 Design correlates of the community	140
The sample	140
The design analysis	143
Community patterns of design	165
A summary of design variability	175
Other pottery-making communities	177
Summary of the community patterns	183
8 Design and society	188
Models of style and Quinoa ceramic design	188
Design models and variability	192
Summary	195
9 Archaeological implications: the Ayacucho Valley	197
Applying the present to the past	199
Processual analogies in ceramic production	200
Applying the processual analogies	204
Ceramic production in the Middle Horizon	209
Climate and ceramic specialization in the Peruvian Andes	217
Ceramic specialization on the coast of Peru	224
Ceramic specialization in the ancient Andes	226
Conclusion	231
10 Conclusion	233
The community of potters	233
Ceramic ecology: climate and paste	236
Ceramic design	237
Standardization	238
The present and the past	239
