Aoyama, H. 1
Arrow, K. J. 1, 5, 10, 21, 25, 28, 33–41, 76, 86, 93, 113, 130, 150, 189, 193–7

Bamford, Julia 136
bank
  lending constraint for 161
banker 3, 42
bankruptcy 40
Block, H. D. 131
von Böhm-Bawerk, E. 6, 7, 103–7, 195–6
Brouwer's fixed point theorem 204, 206
budget equation for
  bank 144
  firm 143
  household 142
Buchardt, F. 53
Burmeister, E. 7

capital 4
capital goods
  as joint output 56
  economic lifetime 53
  indivisibility of 79
  physical lifetime 53
capital intensity condition 158–9
capitalist
  as a holder of real stocks of commodities 30–2
  as a shareholder 34–7
Catephores, G. 22, 157
Cockaigne
  no land of 50
consumption multiplier 137
credit 41
cumulative process 169, 171

Dasgupta, P. 45
Debreu, G. 2, 5, 10, 21, 28, 33, 37, 86, 93, 113, 192–7
dichotomy 67
  of production from finance 4, 150–2

dominant diagonal matrix 130
Dore, M. 196

elementary period 54
Eliasson, G. 45
entrepreneur 3, 6
entrepreneurial resources 27
equal rate of profit between banks and firms 146
event 192
ex ante financial arrangement between firms and banks 22
ex post equality between savings and investment 22, 148

financier 3
fixprice
  model 10, 13
flexprice
  activities 101
  model 10, 12
  sector 2, 112, 122
full-cost principle 14

Gale, D. 86
Georgescu-Roegen, N. 50
GND Lemma 87, 151
Goodwin, R. 196
Grandmont, Jean-Michel 26

Hahn, F. H. 2, 5, 10, 21, 28, 33–41, 76, 86, 93, 113, 115, 186, 193–7
Harrod, R. 174
von Hayek, F. A. 6, 103, 105, 177, 195–6

Hilferding, R. 24
Hurwicz, L. 131, 189

income effect 3
increasing returns 107–9, 208–9
inflation 177ff.
instability

Schumpeterian 189
Wicksellian 189
innovation 6, 40, 110, 139, 162–3
credit 163
inflation 164
instability 189
issue of new shares 40
Japanese type 110–11
trigger-effect 133–4, 137, 140
invention 132–3
Harrod neutral or biased 139
Hicks neutral or biased 139
investment planning council 189
IS curve 177–80

Kakutani's fixed point theorem 209
Keynes, J. M. 10, 16, 17, 20–3, 48, 68–76, 82, 96, 103, 137, 152–8, 160–5, 169, 172, 185, 190–5
Keynesian
ex post savings-investment equality 22, 148
involuntary unemployment 154, 156
liquidity preference theory of interest 169
Koopmans, T. C. 76

La Volpe, G. 20, 38
L-economy 76, 107
Leontief, W. 8, 52, 114, 189, 196
Liapounoff function 130
Lindahl, E. 174, 183
liquidity function 48–9
LM condition 169, 178
long-run equilibrium point 115–17

McKenzie, L. 33
Malinvaud, E. 2, 4, 10, 12–15, 28, 41, 105, 195
Malthus, T. R. 56
marginal-cost principle 14
Marshall, A. 195
Marx, K. 2, 27–30, 54–6, 77, 95, 136, 191, 195
mixed flexprice–fixprice model 10, 19, 114
Modigliani–Miller irrelevance theorem 63, 69, 202
Morishima, M. 2, 7, 12, 27, 34, 56, 62, 77, 84, 86, 89, 104, 121, 133, 196
multiple equilibria 114
Myrdal, G. 177, 183

Negishi, T. 189
neoclassical growth theory 139, 140
von Neumann, J. 7, 9, 11, 50, 56, 83–4, 86, 172, 196
von Neumann equilibrium 180, 181
factor markets 11–12
inflation and deflation 180–3
Nikaido, F. 33
numeraire 68

Okumura, H. 110–11, 202
Okun, A. M. 203

Pareto-efficiency 4, 93, 97, 98, 103, 109, 202
Patinkin, D. 2, 174, 195
perfect equilibrium 104–5
perfect forsight 104–5
plan
demand–supply 46, 47
input–output 46, 47
stock 46, 47
prices
internal 7
market 7
primitive accumulation 30
production
facility, lifetime 8
financial cost 62–3
genealogy 56–8
indivisibility 79
