## Contents

|                          |                  |
|--------------------------|------------------|
| <i>Contributors</i>      | <i>page</i> xvii |
| <i>Glossary of Terms</i> | xxiii            |

### **Section I Aspects of Hemopoiesis and the Immune System Important for Cell Therapy**

|  |    |
|--|----|
| <b>1 Overview of Hemopoiesis and Hemopoietic Reconstruction</b>                      | 3  |
| MALCOLM A.S. MOORE   |    |
| <b>2 Effector Cells of Experimental and Clinical Cellular Adoptive Immunobiology</b> | 18 |
| SHIMON SLAVIN  |    |

### **Section II Hemopoietic Cell Therapy**

#### **PART A SCIENTIFIC PRINCIPLES**

|   |    |
|---|----|
| <b>3 Current and Potential Uses of Defined Cell Populations</b> | 47 |
| MICHAEL LILL AND JUDITH C. GASSON                               |    |
| <b>4 Human Progenitor Cell Assays</b>                           | 59 |
| C. GLENN BEGLEY   |    |

**Contents****xv****PART C CURRENT CLINICAL APPROACHES**

|           |  |     |
|-----------|--|-----|
| <b>16</b> | Dose-Intensive Chemotherapy without Hemopoietic Cell Support   | 269 |
|           | RUSSELL L. BASER AND RICHARD M. FOX  |     |
| <b>17</b> | Clinical Potential of Hemopoietic Growth-Factor Support for High-Dose Chemotherapy                                 | 299 |
|           | DAVID FENNELLY, GEORGE RAPTIS, JOHN P.A. CROWN, AND LARRY NORTON   |     |
| <b>18</b> | Treatment of Solid Tumors with High-Dose Chemotherapy Requiring Cellular Support                                   | 312 |
|           | LOTHAR KANZ, MARION SUBKLEWE, AND WOLFRAM BRUGGER  |     |
| <b>19</b> | High-Dose Chemotherapy with Cellular Support for Hematological Malignancies  | 337 |
|           | PHILIP J. BIERMAN, MICHAEL R. BISHOP, AND JAMES O. ARMITAGE  |     |
| <b>20</b> | Allogeneic Marrow Transplantation as Treatment for Myeloid Malignancies: Why it Works and How it Might Be Improved | 352 |
|           | FREDRICK R. APPELBAUM  |     |

**PART D FUTURE CLINICAL APPLICATIONS**

|           |  |     |
|-----------|--|-----|
| <b>21</b> | Clinical Gene Therapy  | 369 |
|           | CYNTHIA E. DUNBAR  |     |
| <b>22</b> | Gene Therapy of Enzyme and Immune Deficiencies in the Hemopoietic System | 386 |
|           | JEFFREY A. MEDIN, MAKOTO MIGITA, AND STEFAN KARLSSON                     |     |
| <b>23</b> | Cellular Therapy Approaches to the Treatment of AIDS                     | 414 |
|           | RANDAL A. BYRN AND MARGO R. ROBERTS                                      |     |

**Section III Experimental and Clinical Cellular Immunotherapy**

|           |                                     |     |
|-----------|-------------------------------------|-----|
| <b>24</b> | Adoptive Immunotherapy with T Cells | 429 |
|           | VERA MALKOVSKA AND PAUL M. SONDEL   |     |
