

Index

-
- action, 23, 24
 BK inequality
 continuum, 35
 discrete, 7, 165
 bond, 3
 Boolean model
 dependent, 221
 general, 15, 184
 Poisson, 7, 40, 92, 122
 bounds on λ_c , 52, 89
 branching random walk, 89

 circuit, 3
 closure, 187
 cluster, 3
 size, 89
 complete coverage, 41, 184
 component
 occupied, 15
 vacant, 15
 compression, 127
 connection function, 18, 155
 continuity
 of critical density, 71
 of percolation function 77, 78, 119
 coupling, 28
 covered volume fraction, 122, 209
 at criticality, 123
 critical densities, 45, 50, 53, 92, 152
 equality of, 53, 59, 109, 159
 critical probability, 3
 crossing probability
 continuum, 33
 discrete, 4
 cutting and stacking, 199
 generalised, 202

 density, 11, 25
 relative, 127
 differential inequality, 163
 discrete percolation, 2
 discretisation, 2, 32, 52, 59, 68, 161, 175,
 220, 225
 disjoint occurrence, 6, 34
 dual graph, 5

 event
 decreasing, 6, 31
 increasing, 6, 31
 ergodic decomposition, 183
 ergodic theorem, 22, 23, 24
 ergodicity, 25
 of Boolean model, 27
 of Poisson process, 26
 of random-connection model, 27
 exponential decay, 68
 exterior, 187

 fidi distribution, 10
 finite correlation, 218
 FKG inequality
 continuum, 32
 discrete, 6
 forest, 223, 226
 fractal, 209

 Gaussian field, 219
 greedy algorithm, 227

 high density, 127, 140, 173
 high dimensions, 88, 89
 Hilbert–Schmidt operator, 86

238

infinite volume limit, 168
 interior, 187
 invariant, 21

Kuratowski's criterion, 190

lattice, 3
 Lebesgue density theorem, 153, 201
 Lebesgue set, 153
 level set, 217

martingale convergence, 32
 measure-preserving (m.p.)
 dynamical system, 21
 transformation, 21
 mixing, 26

neighbour, 3

occupied region, 15

Palm distribution, 13
 path, 3
 percolation
 bond/site, 8
 discrete, 2
 fractal, 209
 level set, 216
 in one dimension, 43
 percolation function, 3, 18
 continuity of, 77, 78, 119
 monotonicity of, 3, 29
 phase transition, 2, 4, 53
 pivotal, 7
 planar graph, 190
 point process, 9
 stationary, 10
 Poisson Boolean model, 17
 Poisson process
 homogeneous, 11
 non-homogeneous, 12

Index

random-connection model
 dependent, 225
