This major contribution to the history of philosophy provides the most comprehensive guide to modern natural law theory available, sets out the full background to liberal ideas of rights and contractarianism, and offers an extensive study of the Scottish Enlightenment.

The time span covered is considerable: from the natural law theories of Grotius and Suárez in the early seventeenth century to the American Revolution and the beginnings of utilitarianism. After a detailed survey of modern natural law theory, the book focusses on the Scottish Enlightenment and its European and American connections. Knud Haakonssen explains the relationship between natural law and civic humanist republicanism, and he shows the relevance of these ideas for the understanding of David Hume and Adam Smith. The result is a completely revised background to modern ideas of liberalism and communitarianism.

I am grateful to editors and publishers for permission to use material previously published under their auspices:

Section 0.2 of the Introduction is adapted from part of the introduction to *Traditions of Liberalism: Essays on John Locke, Adam Smith and John Stuart Mill*, ed. K. Haakonssen (Sydney: Centre for Independent Studies, 1988), pp. xi–xxi.

Chapter 1 is a revised and extended version of ch. 7, sect. 4, ‘Divine/natural law theories of ethics’, in *The Cambridge History of Seventeenth-Century Philosophy*, ed. Michael Ayers and Daniel Garber (Cambridge, UK: Cambridge University Press, forthcoming).

Sections 2.1 to 2.7 of Chapter 2 are revised from ‘Natural law and moral realism: The Scottish synthesis’, in *Studies in the Philosophy of the Scottish Enlightenment*, ed. M.A. Stewart (Oxford: Clarendon Press, 1990), pp. 61–85.

Chapter 3 is revised and abbreviated from ‘The structure of Hume’s political theory’, in *The Cambridge Companion to Hume*, ed. David Fate Norton (Cambridge, UK: Cambridge University Press, 1993), pp. 182–221.

Chapter 5 is revised and extended from ‘John Millar and the science of a legislator’, *Juridical Review* (Edinburgh: W. Grant & Son), June 1985, pp. 41–68.

Chapter 6 is abbreviated and revised from the introduction to Thomas Reid, *Practical Ethics: Being Lectures and Papers on Natural Religion, Self-Government, Natural Jurisprudence, and the Law of Nations*, ed. K. Haakonssen (Princeton: Princeton University Press, 1990), pp. 38–85.

Sections 7.1, 7.2, and 7.4 of Chapter 7 are revised from my essay ‘From moral philosophy to political economy: The contribution of Dugald Stewart’, in *Philosophers of the Scottish Enlightenment*, ed. V. Hope (Edinburgh: Edinburgh University Press, 1984), pp. 211–32.

Chapter 8 is revised from ‘The science of a legislator in James Mack-
