

## CONTENTS

Introduction		vii
Notation		ix
Chapter I	The Picard group and the Riemann–Roch theorem	1
Chapter II	Birational maps	11
Chapter III	Ruled surfaces	25
Chapter IV	Rational surfaces	40
Chapter V	Castelnuovo’s theorem and applications	55
Chapter VI	Surfaces with $p_g = 0$ and $q \geq 1$	68
Chapter VII	Kodaira dimension	86
Chapter VIII	Surfaces with $\kappa = 0$	89
Chapter IX	Surfaces with $\kappa = 1$ and elliptic surfaces	107
Chapter X	Surfaces of general type	113
Appendix A	Characteristic $p$	119
Appendix B	Complex surfaces	121
Appendix C	Further reading	124
