Aristotle’s Nicomachean Ethics is one of the most important ethical treatises ever written, and has had a profound influence on the subsequent development of ethics and moral psychology. This collection of newly commissioned essays, written by both senior and younger scholars in the field, presents a thorough and close examination of the work. The essays address a broad range of issues including the compositional integrity of the Ethics, the nature of desire, the value of emotions, happiness, and the virtues. The result is a volume which will challenge and advance the scholarship on the Ethics, establishing new ways of viewing and appreciating the work for all scholars of Aristotle.

Jon Miller is Associate Professor of Philosophy at Queen’s University, Kingston. His previous publications include Hellenistic and Early Modern Philosophy (Cambridge, 2003).
CAMBRIDGE CRITICAL GUIDES

Contributors

Klaus Corcilius is Assistant Professor at the University of Hamburg, where he teaches ancient philosophy. He is author of a book on Aristotle’s theory of motivation and of several articles on related subjects.

Hallvard Fossheim is a research fellow in philosophy at The Ethics Programme/IFIKK, University of Oslo. He has published several articles on Plato and Aristotle.

Stephen Leighton is Professor of Philosophy at Queen’s University, Canada. His research focuses on ancient philosophy as well as contemporary understandings of the emotions. He has published numerous articles on Aristotle’s ethics.

A. A. Long is Irving Stone Professor of Literature, Professor of Classics, and Affiliated Professor of Philosophy at the University of California, Berkeley. He is the author of several books on ancient philosophy,
Notes on contributors

**Susan Sauvé Meyer** is Professor and Chair of the Department of Philosophy at the University of Pennsylvania. She is the author of *Aristotle on Moral Responsibility* (1993) and *Ancient Ethics* (2008).

**Michael Pakaluk** is a Professor and Director of Integrative Research at the Institute for Psychological Sciences in Arlington, Virginia. His publications include the Clarendon Aristotle volume on Books VIII and IX of the *Nicomachean Ethics* (1998) and *Aristotle’s Nicomachean Ethics: An Introduction* (2005).

**Giles Pearson** is Lecturer in Philosophy at the University of Bristol. He has published a number of articles on Aristotle’s ethical thought. He is co-editor of *Moral Psychology and Human Action in Aristotle* (2011).

**Iakovos Vasiliou** is Professor of Philosophy at Brooklyn College and the Graduate Center of the City University of New York. He is the author of *Aiming at Virtue in Plato* (2008) and a number of articles in ancient philosophy.
Acknowledgments

It gives me great pleasure to acknowledge the many people and institutions helping to bring this volume to fruition. Most importantly, there are the eleven contributors, all of whom wrote new papers just for this book and were exceedingly patient with the protracted process of seeing their work into print. Next are those who offered advice on how to build the volume, including Victor Caston, Eyjólfur K. Emilsson, Brad Inwood, Rahul Kumar, Phillip Mitsis, Jessica Moss, Jennifer Whiting, and the contributors themselves. James Stuckey and Jordan MacKenzie were excellent research assistants, going far beyond his copy-editing mandate. Finally, financial support of different kinds was given by Queen’s University and SSHRC. Many thanks to all.
Abbreviations and transliteration

Common abbreviations are used when citing Aristotle, Plato, and other major figures from the history of philosophy. There is slight variation from author to author. Because it is always plain what work is being referred to, I have not attempted to impose a single standard.

Also, Greek words have been transliterated into Roman characters. It is often possible to use different transliterations for the same Greek word. Since the differences, when they occur, do not matter very much, I did not enforce consistency across all authors.

1 One list of abbreviations for Aristotle can be found in Barnes (1995), pp. xxiv–xxv.
