Cambridge University Press has no responsibility for the persistence or
 accuracy of URLs for external or third-party internet websites referred to
 in this publication, and does not guarantee that any content on such
 websites is, or will remain, accurate or appropriate.

Every effort has been made in preparing this book to provide
 accurate and up-to-date information which is in accord with accepted
 standards and practice at the time of publication. Although case histories
 are drawn from actual cases, every effort has been made to disguise the
 identities of the individuals involved. Nevertheless, the authors, editors,
 and publishers can make no warranties that the information contained herein
 is totally free from error, not least because clinical standards are constantly
 changing through research and regulation. The authors, editors, and
 publishers therefore disclaim all liability for direct or consequential
 damages resulting from the use of material contained in this book.
 Readers are strongly advised to pay careful attention to information
 provided by the manufacturer of any drugs or equipment that they
 plan to use.
